

NEW ERA BEGINS IN NORTHERN MEXICO; MARKS REBELS' PEACEFUL OCCUPATION OF TERRITORY ABANDONED BY FEDERALS

GENERAL VILLA WITH 2,000 MEN IS ON WAY TO THE EVACUATED CITY OF CHIHUAHUA

Has Restored Telegraph as Far as Ahumada and Railroad Runs to Montezuma—Villa Predicts That He Will Have 20,000 Men Surrounding Mexico City About Christmas Time—Washington Officials Confident That Patience Will Win.

JUAREZ, Dec. 3.—A new era began in Northern Mexico today. It marked the peaceful occupation by the rebels of the territory abandoned by Huerta's federal troops.

With 2,000 rebels, General Francisco Villa, enroute from Juarez to the evacuated city of Chihuahua, passed through Ahumada, 15 miles south of the border and camped at Montezuma, thirty miles farther south. Five thousand more rebels will join him on the way and with a combined force of 7,000 men he will enter the state capital there to establish what will be the temporary military headquarters of the constitutionalist party.

Restores Telegraph Lines. The departure of the rebel forces from Juarez with their equipment was made on four trains, a garrison of 1,700 soldiers having been left behind to guard the border town. As far as Ahumada, Villa has restored the telegraph and the railroad runs to Montezuma, where it is interrupted by burned bridges. These, however, will be reconstructed within a few days.

Whether General Carranza, the recognized head of the revolution also will go to Chihuahua, seemed to be in doubt, although Villa said he expected Carranza's forces to cross from Sonora to concentrate the men for operations further south.

When the rebels enter Chihuahua with the tattered Mexican flags which they are carrying as a symbol of their demands for a restoration of constitutional government, they will have Zacaates as the nearest federal stronghold on the south. It is toward that city that Villa insists he will march. The flight of General Salvador Mercado, of the federal government and commander-in-chief, makes possible the rebel occupation of the city without a fight. The fact that Mercado sent a commission to Villa through Federico Moya, the civil governor ad interim was regarded by the rebel leader as a mask to enable Mercado to get away.

Have Had No Parleys So Far. So far the rebels and federals have had no parleys of any character and Villa said he did not think Huerta's officers would expect clemency from him.

No word was received today from the federal generals who are fleeing. The rebels expressed the belief that after escorting the civilians to the border, the officers might retreat to Nuevo Leon state, as General Orozco and Salazar are under indictment in the United States for violation of the neutrality laws.

Monterey and the few remaining federal strongholds in Nuevo Leon and other northern states Villa said would be left to local bands of rebels. He intends to direct his main army toward Mexico City.

"I will have 20,000 men surrounding Mexico City about Christmas time," said Villa. "Our numbers will increase as we march southward and by the time we reach the capital, the people in the city will be ready to join us."

A message received from Chihuahua by courier said the city was quiet and the citizens including the Americans were much relieved by the exodus of the federals. It was stated Mercado had been bankrupt for weeks and that the soldiers had been without pay for so long they threatened looting and mutiny.

Sends Squadron to Presidio. El Paso, Tex., Dec. 3.—On information that the refugees from Chihuahua were within thirty miles of Ojinaga on the border, a squadron of the fifteenth United States cavalry tonight was ordered to Presidio, Texas, opposite Ojinaga. The military authorities were instructed to arrest any Mexican federal officers who might attempt to cross the border.

Officials More Confident. Washington, Dec. 3.—Government officials here were more than ever confident today that the influenza epidemic which the United States has shown in its treatment of the Mexican problem is soon to be rewarded by a solution brought about by operation of the great international forces now engaged in a final struggle in Mexico. Such a conclusion has been the one principal object of the American administration. Among the facts which form the basis of the belief that the closing chapters of the Huerta regime are now being written is a report to the department from agents in Mexico that the federal troops are no longer in receipt of their pay without which experience has shown their loyalty cannot be depended upon.

Other reports regarded as indicating the speedy triumph of the constitutionalist forces related to the precipitate flight of the heads of the families which have controlled vast estates in Northern Mexico, employing thousands of peons in agriculture, stock raising and mining. Their flight and the abandonment of their properties deprives the Huerta government of a source of revenue which is very much needed at present.

DRUGGIST AND WIFE ARE CHARGED WITH THEFT OF VALUABLE JEWELRY

CHICAGO, Dec. 3.—Melville Reeves, a druggist and his 19 year old wife were arrested today in their home in a fashionable residence district charged with the theft of jewelry valued at \$8,180 from the office of T. J. Hyman, secretary of the Illinois Steel company. Part of the jewelry was the property of Hyman's daughter, wife of Francis Porter, a former broker who recently went through the bankruptcy proceedings.

A pearl necklace which Mrs. Reeves was wearing when arrested was said to be the property of Mrs. Porter. Other gems were recovered from a safety box rented by Mrs. Reeves the day of the alleged robbery. Mr. and Mrs. Reeves asserted their innocence.

SMUGGLES CONTINUE TO POUR DEADLY GASES INTO MINE

BINGHAM, Utah, Dec. 3.—Behind its double bulkheads, the Utah Apex mine still held secret tonight the fate of Ralph Lopez, slayer of six men. The smudges which were ignited Monday continued to pour their poisonous gases into the upper workings. If his body is found when searchers enter the mine the despondent miner will have met death by one of the most unique executions in the history of the west. Although arrangements had been made to let the smudges die out, the sheriff late tonight decided to continue their use until tomorrow.

IN HONOR OF BIRTHDAY. A birthday party was held at the home of Dr. and Mrs. E. L. Crouch, Kilmarnock, Wednesday afternoon in honor of the 14th birthday of their son Joel. A splendid five course dinner was served at 6:30 o'clock and the evening was spent in a delightful manner by the use of games. The high school colors, red and white were used in the decorations and green was the prevailing color in the dining room. The company included John Martin, Veranus Coover, Edward Tomlinson, Dallas Hagen, Dawson Darley, Russell Pinkerton, Frances Doan, Mark Robinson, Roger Carter, Paul Jones, John Collins, Charles Capps, John Strawn, Joel Crouse.

MANY ATTEND OPENING OF IDEAL BAKERY STORE

A large number of the ladies of Jacksonville were present Wednesday at the formal opening of the new Ideal bakery store on West State street and many favorable comments were made upon the neatness of the interior and the variety of goods on display. The room was furnished with beautiful floral decorations and favors of red and pink roses were given the friends who called. Besides cakes, cookies, pies, puffs, breads and other kinds of bakery goods there were on exhibition extracts and other ingredients used in baking. A feature of especial convenience is the rest room which is to be made at the rear of the store for the comfort of the lady customers of the bakery.

DO YOUR CHRISTMAS SHOPPING EARLY AT STATE STREET CHURCH BAZAAR.

Articles of home manufacture of all sizes and all ages, from bed comforts to doll aprons. Original designs in art work, novelties and confections, all to tempt and satisfy the most fastidious taste.

Bazaar Opens at 4 p. m.

Supper served in the church parlors, 6 to 8 o'clock. Only 35c. Remember the date today.

MET CHAUTAUQUA CONGRESS. Miss Helen Robinson was in Springfield Wednesday to attend the session of the Illinois Alliance of Chautauqua Managers which met at the Leland hotel. Miss Robinson went at the request of the president to present plans for playground festival work for the coming summer. She expects to be at Eureka and Ottawa and several tentative engagements were also made at this time. Mrs. Robinson will accompany and assist her in this work.

HASKETT FAILS TO IDENTIFY DR. CRAIG

CAUSES ONE OF PROPS OF STATE'S CASE IN MURDER TRIAL TO FALL

Description of Man Whom He Saw Coming From Dr. Knabe's Home on Night of Murder Differs From That of Defendant—Dr. Wagner's Testimony Admitted.

SHELBYVILLE, Ind., Dec. 3.—One of the props fell from under the state's case today when Harry W. Haskett, failed to identify Dr. William B. Craig as the man he saw coming out of the area way of the Indianapolis apartment house in which Dr. Helene Knabe lived on the night of her death.

Haskett testified that while he was passing the apartment house about 11:20 o'clock on the night of October 23, 1911, he encountered a man who was walking briskly out of the adjoining area way. The man walked in front of him, he said and then turned south in the direction from which Haskett had come. Haskett said that he stopped and looked after the retreating figure which passed under the street light in corner a short distance away. He was asked to describe the man and said that he was tall and weighing about 150 pounds and had a dark mustache. He wore a crush hat and a long overcoat. He did not wear glasses. Craig has a dark mustache but weighs more than 200 pounds and wears glasses.

The state scored a victory late in the day, however, when the court admitted the testimony of Dr. Otto Wagner, former superintendent of the Indiana veterinary college in regard to a conversation he had with Dr. Craig concerning Dr. Knabe on September 29, 1911. A futile effort was made to have this testimony excluded.

Dr. Wagner declared that he had spoken to Dr. Craig and Dr. A. H. Roberts about giving up their lecture hours at the school on that day in order to permit Dr. Knabe to address the students.

"When I put the question to Dr. Craig," said the witness, "he arose from his seat with a show of irritation and said 'oh tell her to go to hell.' I told him I would carry no such message as that, and he turned away saying nothing more."

Dr. Wagner testified that Dr. Craig and Knabe had previously been good friends and the former had taken the latter some in his automobile.

Two Indianapolis newspapermen, Paul White and Ray Baumgardner, witnesses for the state told of interviews they had had with Dr. Craig subsequent to the death of Dr. Knabe.

"The friendship between us was like that of two men," Dr. Craig had said to the witness, according to Mr. Baumgardner.

Mr. Baumgardner declared that Dr. Craig had admitted having loaned small sums of money to Dr. Knabe. These sums she had paid back.

ARMY OF UNEMPLOYED MEN SWAMPED CHARITABLE ORGANIZATIONS

Chicago, Dec. 3.—Chicago faces a serious situation caused by an army of thousands of unemployed men according to a report of the committee of homeless submitted today at a meeting of representatives of charitable organizations. The organizations have been swamped with applications for work and shelter and they demand instant action by the city. A large number of men ordinarily engaged on construction work of the railroads and without employment because of the retrenchment policy of most of the roads and stagnation of the steel industry is another cause.

ATHLETICS AT Y. M. C. A.

Two basketball games were played last evening by the Intermediate teams, Swain's team defeating Hembrugh's 19 to 16 and Boxell's team trouncing Marshall's to the tune of 37 to 3. The Intermediate boys were organized into four clubs for basketball and volley ball a short time ago with Harold Swain, Wallace Hembrugh, Max Boxell and Reon Marshall as captains.

The present standing of the clubs by points is:

Basketball—Hembrugh, 75; Boxell, 55; Swain, 37 and Marshall, 26. Volley ball—Swain, 84; Boxell, 63; Hembrugh, 56 and Marshall, 32.

On account of the volley ball game Friday between the Jacksonville and Peoria business men the customary game by the intermediates will be omitted.

WEATHER INDICATIONS AND TEMPERATURES.

Washington, Dec. 3.—Illinois—Unsettled Thursday and probably Friday with occasional rains; moderate winds mostly north.

Temperatures

The current maximum and minimum temperatures for Wednesday were:

Jacksonville	54	56	52
Boston	38	50	40
Buffalo	38	44	40
New York	42	58	44
New Orleans	60	62	50
Chicago	46	48	45
Detroit	40	46	42
Omaha	50	52	48
St. Paul	52	46	40
Helena	22	28	18
San Francisco	54	60	48

CONTESTS VALIDITY OF INCOME TAX LAW

Miss De Wolf Brings Suit Against Chicago Bank to Compel Pay- ment of Interest on Bonds

FAILS TO FILE CERTIFICATE

Plaintiff Alleges That Tax Is Not Uniform and Is, Therefore Unconstitutional—To Be Made Test Case

MAY CONFER WITH McREYNOLDS

CHICAGO, Dec. 3.—Charges that the income tax feature of the new tariff law constitutes class legislation and is unconstitutional were made today in a test suit filed here against the Continental and Commercial Trust & Savings Bank on behalf of Miss Elsie DeWolfe of New York. The United States government probably will be asked in defense of the case.

The declaration filed by Bourke Cochran of New York and Collin F. Fyfe of Chicago for Miss DeWolfe alleged that the tax violated the fifth amendment to the constitution without due process of law and that it violated the fourteenth amendment in denying her equal protection under the law.

The graduated scale of taxation the declaration alleged discriminates unjustly against persons of incomes under \$100,000 a year "usually gained from industrial and artistic pursuits" in favor of those with incomes more than \$100,000 a year. The suit was brought to compel the bank to pay the interest on thirty bonds of the Appalachian Power company, which the suit stated, the bank had declined unless Miss DeWolfe filed a certificate of ownership as provided by the income tax law.

Damages of \$1,000 are asked in each of five suits.

Will Make Suit a Test Case.

Levy Mayer, attorney for the bank declared that the suit would be made a test case. He also said he would probably confer with Attorney General McReynolds and might ask that the department of justice be represented in the defense of the bill.

The plaintiff alleged that the income tax is not uniform and that the law is therefore unconstitutional, first because it is imposed on only 423,000 in a population of some 90,000,000 and the persons who would pay the tax have not consented to its imposition.

The tax violates the elements of equality in its graduated scale of taxation.

The plaintiff pointed out that she, being a single woman was subject not only to a tax of one percent on her whole income in excess of \$3,000 but was also subject to an additional tax of one percent on that portion exceeding \$20,000 and less than \$50,000 and an additional one percent on \$50,000 and \$75,000; an additional one percent between \$75,000 and \$100,000.

"On the other hand," the declaration stated, "persons with incomes exceeding \$100,000, are taxed but an additional one percent on the whole excess up to \$250,000; that is to say, on such excess they would be required to pay but one sixth the rate of a person whose income is less than \$100,000; persons whose incomes exceed \$250,000 a year, are taxed but one percent on the whole excess up to \$500,000; that is, one sixth the rate levied on the plaintiff; and persons with incomes exceeding \$1,000,000 are subject to a penalty of but one percent no matter how great their annual revenues, whereas if all persons whose incomes exceed \$100,000 a year were taxed in the same proportion as the plaintiff those with incomes of \$250,000 would be subject not to the additional penalty of five per cent which this statute imposes but to a penalty of 10 per cent; those with incomes of \$500,000 a year would be subject not to a penalty of six per cent but to a penalty of 10 per cent; those with incomes of \$1,000,000 would be subject not to the penalty of seven per cent but to a penalty of forty per cent; and those with incomes of \$2,500,000 and over, instead of being subject to the penalty of seven per cent, which the statute imposes would be compelled to pay 100 per cent; that is the entire excess of their incomes over \$2,500,000 into the public treasury."

Should Pay a Like Proportion

The declaration continues that there are several persons in the United States with incomes of more than \$2,500,000 a year who could be compelled to pay a large proportion of their incomes into the public treasury without hardship while the tax imposed hardship and deprivation on those of smaller incomes. Incomes ranging from \$30,000 to \$100,000 a year were mainly the fruits of laborious industry, the declaration added and usually the entire incomes were expended by those who earned them in supporting their families, while incomes exceeding \$100,000 were enjoyed mainly by persons of enormous fortune who collected them without pecuniary risk, serious responsibility or fruitful labor.

The complaint continued that in penalizing such incomes as the plain-

CLERGYMEN TAKE HAND IN TEAMSTERS' STRIKE

MINISTERS SUBMIT PROPOSITION AT MEETING OF UNION

Propose That Statement of Facts From Both Sides Be Published in Hope of Bringing Factions Together—Few Disorders Wednesday.

INDIANAPOLIS, Ind., Dec. 3.—Clergymen of Indianapolis took a hand in the teamsters strike when they submitted a proposition at the union meeting late today. The clergymen proposed to obtain a statement of facts from the union and also one from the employers. These statements the clergymen said they would have published so that the citizens would know the cause of the trouble. In this way they hoped to bring the team owners and teamsters together.

It had been expected that the union would vote to permit drivers whose employers had signed the union agreement to return to work. This was urged by the central labor union and the teamsters' officials were busy obtaining signatures of employers to tentative agreements. It was said that more than 100 team owners had signed but the list did not include any of the large employers. The question of calling a general strike has been put over until a meeting of the central labor union strike committee tomorrow night. Members of the committee are hopeful of settling the teamsters' trouble without the necessity of calling all other organized labor on a strike.

What few disorders there were today were of the "bit and run" variety. A small crowd would collect quickly, attack a wagon and disappear as soon as the police came in sight. Only one person, Eugene Rutledge, 18, was injured seriously. He was shot in the leg by strike-breakers on a coal wagon. The five men on the wagon were arrested, but later released when witnesses said shots had also been fired in the crowd. Wholesalers, ice and coal dealers, reported little trouble in operating their wagons.

A complaint has been made to city authorities by church organizations against the free operation of brewery wagons, when bread, milk and other supply wagons are interfered with. Officials of the teamsters' union said the drivers of brewery wagons belonged to the brewery workers' union and were not in the teamsters' jurisdiction. A report reached Mayor Wallace today that rioters were organizing and arming at meetings in saloons. A number of saloons were raided but only a few men were found.

FIRE WHICH CAUSES LOSS OF 28 LIVES SUBJECT OF EIGHT PROBES

BOSTON, Dec. 3.—The fire which cost the lives of twenty-eight homeless men in the Arcadia Hotel, a low priced lodging house in the south end district early today had become "the subject of eight separate investigations" by nightfall. Some of them were aimed at determining where lay responsibility for the conditions which made the loss of life so large and others were directed toward devising measures to protect hundreds of other men forced by circumstances to seek shelter in similar places. The cause of the fire was not determined.

RECEIVED PAINFUL BURNS

Fred Myers, son of Mr. and Mrs. John Myers of Pisgah, a patient at the Jacksonville State hospital, received severe burns while being given a bath Wednesday morning, according to word sent to relatives by the hospital authorities. He had only been a patient there since Saturday. His condition was not so favorable last evening but it is not thought the result of the scalding will be serious. His wife is expected in the city today.

ANSWERED DESCRIPTION OF STOLEN HORSE AND RIG

Although nothing has been heard definitely of the horse and buggy stolen Monday night from Dr. David H. Reid, an outfit answering to the description of the stolen rig was seen Tuesday morning near Franklin and later near Nortonville. A young man and girl were in the vehicle inquiring their way to Virden. At Virden they stopped at a livery stable and inquired the route to Litchfield.

WILLARD DEFEATS MORRIS.

New York, Dec. 3.—In a ten round bout at Madison Square Garden tonight Jess Willard of Kansas defeated Carl Morris of Oklahoma. Willard weighed 235 3-4 pounds, Morris 234 1-4.

It's in such severity, while allowing noncarriers of incomes exceeding \$500,000 to "escape with such a wholly disproportionate penalty," the tax undertook to deprive her of her property without due process of law, contrary to the fifth amendment to the constitution and denied her equal protection of the law contrary to the fourteenth amendment in discriminating unjustly against those who gain their incomes from peaceful pursuits which benefited the community in favor of persons who, because of their large possessions necessarily required the largest and most frequent exercise of the powers of the government for the protection of property rights.

PLAN TO FLOOD COAST STATES WITH LABORERS

IMMIGRATION OFFICIALS URGY WITH EFFORTS TO FRUSTRATE MOVE

Advices Say Arrangements Had Been Made at Manila to Send the East Indians With Certificates From Insular Government—Test Case Now in Court.

VANCOUVER, B. C., Dec. 3.—Immigration officials of the United States are busy with efforts to frustrate the plans of a secret organization with headquarters at Manila to flood the Pacific Coast states with Hindu laborers according to Anthony Caminetti, commissioner general of immigration. Mr. Caminetti left here today for Seattle after having conferred yesterday with British Columbia officials at Victoria on immigration problems.

Advices had reached the immigration service, Mr. Caminetti said, that arrangements had been made at Manila to send the East Indians from the Philippines with certificates obtained from the insular government. On the strength of these certificates a party of five Hindus gained admission to the United States at San Francisco, establishing a precedent, he said and preparations were made immediately for the sending forward of an army of laborers in the same way.

Test Case at San Francisco.

San Francisco, Dec. 3.—If a flood of Asiatic immigration is headed toward the Pacific coast the ability of the department of immigration to stem it will depend largely on a test case now under advisement by Judge Maurice T. Dooley of the United States district court. Arguments were submitted yesterday.

Twenty-two Hindus who previously had been admitted to the Philippines were detained by immigration inspectors on reaching this port and ordered deported on the ground that they were likely to become public charges. They are comparatively well to do in their own country and all of them are assured of employment here according to arguments presented by their counsel who applied for writs of habeas corpus.

TESTIFIES IN OWN DEFENSE OF CHARGE OF KILLING HIS MOTHER

CLINTON, Mo., Dec. 3.—Thillie O. Puckett, testifying in his own defense today at his trial charged with the murder of his mother, Mrs. Susan Markinson, said his mother had quarreled with him because she did not like his wife.

"Ma wanted me to drive my wife away," he said, "but I told her I never would do that. Then she said she would rather see us both nailed in coffins than living together. 'You shall not live together,' she said to me, 'if it sends me to hell to stop it.'"

Puckett testified that on the night of his mother's death he awoke to find his mother dead and seeing some one going out the rear door he fired at random not knowing who it was. He said he then carried his wife and child from the house. Not until the fire was nearly extinguished and the house in ruins did he discover his mother's body lying near the back porch under charred timbers.

FINK ADMITS STATE'S ATTORNEY GAVE HIM MONEY FOR TESTIMONY

CHICAGO, Dec. 3.—Benjamin Fink admitted while testifying in the trial of Harold J. Finner an attorney charged with conspiracy to defraud insurance companies, that he had received \$2,000, a promise of immunity and support for himself and family from the state's attorney in return for his testimony regarding the operation of the so-called arson trust.

Fink has confessed to causing fifty fires during a period of three years. Finner is on trial in connection with a fire in the warehouse of a wholesale dealer. Fink admitted causing the fire and implicated Finner.

Says Attorneys Gave Money.

Chicago, Dec. 3.—Frank Johnstone, assistant state's attorney said that Fink received the \$2,000 from attorneys for the fire insurance companies interested in prosecuting the incendiaries and denied the money had been paid by the state's attorney's office.

WATCHERS TELL OF SEEING BODIES FLOAT DOWN STREAM AND MEN DROP FROM TREES INTO FLOOD

WACO, Texas, Dec. 3.—Refugees from about a thousand homes in South and East Waco, submerged to the eves by the flood waters of the Brazos river tonight were huddled in churches a compass, neighboring houses and a woolen mill, many of them ignorant of the fate of other members of their families.

Watchers along the river banks told of having seen bodies floating down stream and others declare they have witnessed men dropping from trees into the flood.

Three Rivers Out of Banks.

Dallas, Tex., Dec. 3.—With three rivers, Trinity, Brazos and Colorado and innumerable small streams out of their banks as a result of torrential rains which began Monday night and still continue the flood situation in Central Texas has assumed serious proportions. Within

HAY ARMY BILL IS PASSED BY HOUSE

Measure, Which Now Goes to Senate, Would Put War Volunteers on Equal Footing with Regulars

WOULD ENLIST "FOR WAR"

Representative Mann Injects Mexican Situation Into Discussion—Comments on Fact That Chairman Hay Pressed Bill

PRESIDENT WOULD APPOINT OFFICERS

WASHINGTON, Dec. 3.—After a discussion into which Representative Mann injected the Mexican situation, the house today passed the Hay army volunteer bill that in varying forms has been talked of at the capitol for many years. The bill, which now goes to the senate would put war volunteer forces on an equal footing with the regular army. It would provide that whenever in the president's judgment war is imminent, or actually exists, the president may organize volunteer regiments for war purposes. The men, instead of enlisting for a short period as in past wars would enlist "for the war."

The president would appoint all the officers, not more than four regular officers to be appointed to any one volunteer regiment. The volunteer force thus formed would supplement the existing national guard, with which the bill would not interfere.

Representative Mann in speaking of the Mexican situation said that of course Chairman Hay of the military committee, the administration and all others could deny that the bill was presented owing to the Mexican situation.

"I took a minute then to say," added Mr. Mann, "that at least there was one man in the house who was not attempting to deceive himself, while all the others had said that was not in expectation of war, but to prevent war. I fear that the same situation arises now."

"I should greatly regret war with Mexico," he continued, "I have no complaint to make of the president's attitude in his dealings with Mexico, although I confess I can see no end to the road which he is now pursuing. He said yesterday that the Huerta government in Mexico would fall soon. Very likely, I think any government in Mexico which does not receive the moral support of our government will not last a great length of time and I doubt whether any government in Mexico constituted by the so-called constitutionalists or the other revolutionists will last with or without the support of our government."

Mr. Mann commented upon the fact that Chairman Hay had pressed the bill, introduced three days ago to passage immediately following the president's message on Mexico.

SPARKS FROM THE WIRES

FALL RIVER, Mass., Dec. 3.—Unfired textile operatives voted tonight against calling a general strike in the cotton mills to enforce their demands for an increase in wages of 12 1-2 per cent.

DENVER, Colo., Dec. 3.—By an unanimous vote of referendum, the striking coal miners in the Southern Colorado coal fields formally rejected the strike settlement proposition made to them by Governor Ammons.

FORT MADISON, Iowa, Dec. 3.—Roy Maxon, foreman of the tool factory in the prison here is in the hospital with a fractured skull as the result of an attack by John Schmetzer, a convict, who is serving a life sentence for murder.

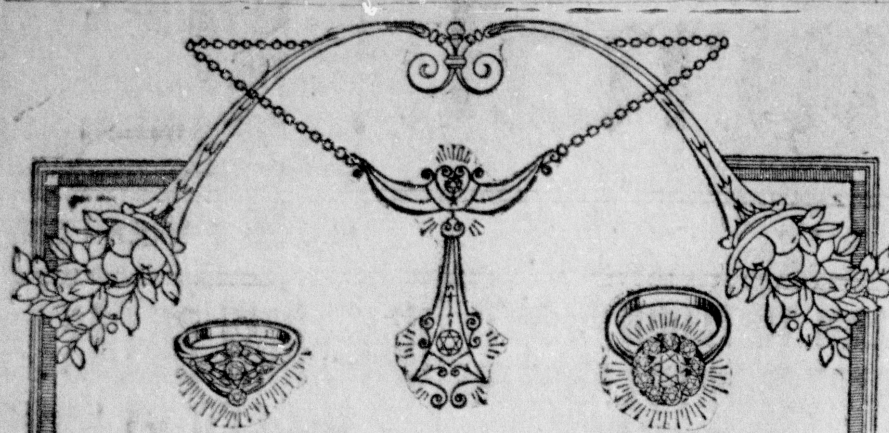

ROCKFORD, Ill., Dec. 3.—Harry Haight an industrial worker of the world arrested here for trying to hold a street meeting threatened tonight to ask headquarters of the industrial workers of the world at Paterson, N. J., to send speakers here to aid in freeing him.

WATCHERS TELL OF SEEING BODIES FLOAT DOWN STREAM AND MEN DROP FROM TREES INTO FLOOD

a territory 200 miles in length and 100 miles in width, almost all of the low lands are under water, approximately 150,000 persons have been driven from their homes; scores have been rescued from trees and floating wreckage; several railroads have been forced to suspend operations and much damage has been done to property. Rumors of loss of life have not been heard.

Five miles south of Maricopa, a passenger train was marooned tonight by high water which swept the car steps. One hundred and fifty passengers were aboard and rescue parties late tonight had been unable to reach them with boats.

Fear was expressed tonight that the Brazos river levee, at Bryan, might break and flood three counties—Burlison, Brazos and Washington.

Diamond La Vallieres

A La Valliere is one of the daintiest and most exquisite pieces of jewelry wrought by the jeweler's craft. And this is particularly true when it is set with diamonds.

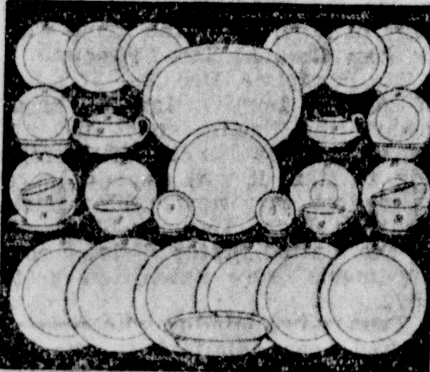

You can see some of the very latest designs in La Vallieres on display at our store, both with precious stones and without.

La Valliere shown in illustration. Gold pendant, of beautiful design, containing two diamonds, \$50.00. Other La Vallieres, \$2.00 and up.

CHAMBER OF COMMERCE DIRECTORS VOTE TO SUPPORT BOND ISSUE

Action Taken at Special Meeting Wednesday Night Pledges Support To Movement To Secure Municipal Plant Improvement—Figures Given on Cost of Present Plant.

At a meeting of the directors of the Chamber of Commerce Wednesday night called to consider the light bond question a motion was passed pledging the directors to support the bond issue. In the absence of Pres. Andrews, vice-president J. J. Roosevelt and Mr. Fritchey served as secretary.

The directors who voted in favor of supporting the bond issue were Dr. Edward G. W. J. Brady, Frank Byrnes, W. S. Eadie, Henry Frisch, Joseph R. Harker, H. J. Rodgers, A. R. Taylor, T. M. Tomlinson, J. W. Walton. Those voting against support were G. E. Doying, F. J. Heintz and John G. Reynolds. H. M. Capps and O. F. Buffe did not vote and Mr. Heintz explained his vote with the statement that he had not fully investigated the problem yet and was still uncertain as to the best action to take. Others present at the session were Commissioners Newman and Brennan, F. E. Baldwin, Bernard Gause, Dr. A. L. Adams, DeMotte Gates, Mrs. William Newman, Mrs. J. H. Danks, Mrs. Geo. Hollinger, Mrs. W. S. Badger, Dr. Grace Dewey.

Arguments favorable to the improvement of the municipal light plant were presented by H. J. Rodgers, Dr. Gause and others. Mr. Rodgers read a letter from a Galesburg business man shedding some light on the methods of utility companies in some instances. Mr. Rodgers stated among other things that

no proposition had been made by the Light Company to the Chamber of Commerce or to the city council so far as recorded, to light the streets, which did not involve all of the franchises.

Mention was made of the alleged cost of the present municipal plant when Commissioner Brennan gave a detailed record of the cost of the plant. The figures which are printed herewith show that the average cost of operation for the eighteen years the plant has been in operation has been \$7,802. Figures given also show the cost of improvements made from year to year and Mr. Brennan said the books at the city clerk's office could be seen by anyone and the figures he was quoting verified.

When the present plant was built the Jacksonville Gas company wanted \$1100 a year for arc lamps and proposed to furnish the city with 125 of these. Finally the company made a price of \$90 per lamp and would go no lower. Then the city plant was erected and so Mr. Brennan very properly figured that the city was entitled to credit of \$90 per lamp for the light produced. Figuring from this basis the plant in 18 years has saved the city more than \$150,000. Granting that possibly during the last nine or ten years that the company would have reduced the price below \$90 the totals would still show very much in favor of the municipal plant. Mr. Brennan mentioned that the Jacksonville Light Company cut the pumping rate to the city more than half as soon as it was known that the city was buying a generator and engine. Under the old rate the bill for part of a month was \$2,700 and now for a larger number of hours the cost is about \$1,000.

Mr. Brennan's very interesting figures are printed herewith.

CITY LIGHT PLANT RECORD FOR EIGHTEEN YEARS.

Years	Amount
1895 electric light plant construction	\$ 23,982.99
1897-8 electric light plant extensions	975.81

GALESBURG ELECTRIC RATES AND THE UTILITY COMPANY

At the meeting of the directors of the Chamber of Commerce last night H. J. Rodgers read the following letter from a business man of Galesburg relative to the record of the Utilities Company there. The statement was made that the utilities are owned by the McKinley syndicate. The name of the writer was not given by Mr. Rodgers; he said the name could be produced if necessary.

Galesburg, Ill., Dec. 1, 1913. We notice what you say in regard to the Utilities Co., and in regard to some will say that they have not lowered their rates in Galesburg a cent in the past 25 years. We are paying the same for current today that we did when the electric light company was first started, i. e., 15c for residents with 10 per cent rebate for cash, 12c at stores with rebates of 1c, making 11c. In case a person would tie up with them under a certain contract which they furnish for 5 years, then they will give a rebate off these prices. On power they charge anywhere from 5c to 8c. They have

as many different prices as they have customers. Our experience has been that they are a pretty smooth set of individuals to deal with. Every time there is any talk of a company being formed they use a page ad in our daily papers to announce the fact that they are going to make a great reduction in price. We organized a small company here a short time ago and thought we were going to get power from Keokuk and they advertised at that time a great reduction in rates at least 50 per cent and actually closed a contract on this basis, but as soon as this deal fell through there was nothing more heard of the reduction. Then the city spoke about going into business themselves and they had a big page ad announcing a 25 per cent reduction to take place the first of January. Of course, the first of January has not arrived but there is no question but that they will have new rates as the Public Utilities Commission will then go into effect and they will not stand for any highway robbery such as this.

EAGLES HOLD ANNUAL ELECTION

Report Excellent Progress for Past Year—Frank Correa Re-elected President.

At the regular meeting Wednesday evening of Jacksonville Aerie, No. 509, Fraternal Order of Eagles, reports were made of the year's progress and officers were chosen for the year ensuing. Frank Correa was re-elected president, which entitles him to be delegate to the national convention of the order and to be candidate for the office of state vice-president.

The officers:
Past Worthy President—H. E. Frye.
Worthy President—Frank Correa.
Worthy Vice-president—Edward Jackson.
Worthy Chaplain—Ralph Stringham.
Worthy Secretary—Fred Doht.
Worthy Treasurer—Michael McGinnis.
Worthy Conductor—Thomas Wall.
Inside Guard—A. A. McCollister.

Ernest May of 414 East Court street, is confined to his home by a bad attack of la grippe. Mrs. Miller Weir is confined to her home on West State street with an attack of tonsillitis.

Wanted—Chamber maid at Pacific hotel at once.

MISS REARICK WEDS MR. JOSEPH LOHMAN

PROMINENT PEOPLE OF ASHLAND WEDDED.

Marriage Took Place in the Methodist Church, Followed by Elaborate Reception at Home of Bride—Many Guests Present From Out of Town.

A wedding of much social prominence took place in Ashland, Wednesday, when Miss Annette Pearne Rearick, became the bride of Mr. and Mrs. Joseph Lohman. The ceremony was held in the Methodist church at 3 o'clock. Rev. Harry W. McPherson officiating. The church was beautifully decorated for the occasion by the use of ferns, smilax and cut flowers, the altar and choir loft being banked with greenery.

Preceding the ceremony the following musical numbers were given by Miss Nelle Smith of Beardstown, violinist and Miss Thirza Woods of Kansas City, vocalist.
Violin—Humoresque by Dvorak; Minuet, Beethoven.

Voice—"What's in the Air Today, Eden; Love's Coronation"—Florence Alywan.

Preceding the bridal party Miss Jessie Marjorie Prince and Master Charles Edward Beadles entered carrying yellow ribbons by which an aisle was formed. Following them were the ushers, Mr. John Graff of Ashland and Mr. Harry Becker of Knoxville, Ill.

The bridesmaids were Miss Emma Pearl of Ashland and Miss Catherine Louise Gates of Jacksonville. They were followed by Miss Helen Rearick, a sister of the bride, as maid of honor. The bride entered on the arm of her father and was met at the altar by the groom and best man, Mr. Stewart Wyatt of Bloomington. The party entered while the wedding march from Lohengrin was played by Mrs. W. A. Baxter of Ashland and Miss Nelle Smith. During the ceremony beautifully plighted by Rev. Mr. McPherson, the musicians played Traumeral by Schumann. The recessional was made by the use of Mendelssohn's wedding march.

The bride wore a beautiful gown of white charmeuse with embroidered pearl trimmings en traine. Her veil was caught up with pearls and she carried a shower bouquet of white roses and lilies of the valley. Her only adornment was a pearl necklace, the gift of the groom. The bride's attendants wore gowns of white lace over yellow satin made en traine. In their hair they wore yellow tulle butterflies, and carried yellow roses.

The bride is the youngest daughter of Mr. and Mrs. Walter Rearick and is a very popular young lady not only of the Ashland neighborhood, but where ever she goes. She is recomplished in many ways and comes from one of the best families of Cass county. She is well known in Jacksonville where she attended the Woman's college for a number of years graduating with the class of 1912.

The groom is the only son of Mr. and Mrs. Joseph Lohman. He attended Illinois college and also the Business college of Quincy. He is a young man possessed of much business ability and is highly regarded. He is associated with his father in the grocery business in Ashland.

Following the marriage a reception to about one hundred and fifty guests was given at the home of the bride's parents. In the parlor the decorations were pink and in the dining room and living room, yellow. A two course luncheon was served by Vickery and Merriam of this city.

Mr. and Mrs. Lohman left on the evening train for Chicago. After an extensive wedding trip the young people will make their home in Ashland. The following were among the out of town guests: Miss Eleanor Capps, Miss Lillian Davis, Miss Mary Wadsworth, Miss Stevenson, Miss Mary Anderson, Miss Grace Cowgill, Mrs. Florence Hartmann, Mrs. R. A. Gates, W. D. Gates, Miss Louise Gates, Miss Irene Crum, Miss Peril Hess, Byron Graff, Frank Biggs, of Jacksonville; Mr. and Mrs. E. V. Von Fossen, Mr. and Mrs. Philip Kuhl, Mrs. Howard Prince, Miss Jesse Prince, Miss Nelle Smith of Beardstown; Mr. and Mrs. S. E. Purvins, Scott Irwin, Edgar Boynton, Miss Rolfe Purvins, Miss Talton, Miss Rolfe Pleasant Plains; Mr. and Mrs. Harry Rearick, Galesburg; Mr. and Mrs. Louis Becker, Miss Marjorie Becker, Harry F. Becker, Knoxville; Mr. and Mrs. John Gardner, Corkville, Texas; Miss Thirza Woods, Kansas City, Mo.; Miss Madge Myers, Mansfield, Ill.; Miss Jeanette Lilienstein, Springfield; Mr. and Mrs. W. R. Campbell and Miss Maria Petefish, of Virginia.

Jacksonville Lodge No. 570 A. F. & A. M. will hold a special meeting tonight at 7 o'clock for work and business. Visiting brothers welcome. Warren Case, W. M. E. L. Kinney, Sec'y.

REMOVAL NOTICE. I have removed my office to number three Unity building. AMOS HENDERSON.

"Little Women" Opera House today, matinee and night. Matinee prices, children 25 cents; adults 50 cents to \$1.00. Night prices 25 cents to \$1.50.

Notice: With each 50c purchase of Handkerchiefs we will give free a beautiful Christmas box—and during this week only we will give a genuine hand made Austrian Lace Handkerchief with each \$2 purchase of handkerchiefs

COMMUNICATION FROM MR. MISER.

Editorial Journal:

I want to commend your efforts to give the people of Jacksonville such information as is within your reach regarding municipal ownership, although the information you have secured is in some cases not quite in accord with the facts as I have found them through personal knowledge of some of the cases you have quoted.

It would be unfair for me to suggest that you are responsible for these erroneous statements, for I have noticed it is your policy to quote from what should be first class authorities. The errors are in no sense yours; they belong to the authors you quote.

The errors in the quotation from Prof. Charles A. Beard are so numerous that I feel that it is only fair to the readers of your paper to point them out.

The city of Memphis, Tenn., has no municipal light plant, and it certainly has not had one at any time since 1902. Therefore Prof. Beard's figures regarding reduced cost in Memphis due to municipal ownership are worse than erroneous, they are impossible. The city contracts with the Memphis Consolidated Gas & Electric Company for 1200 arc lamps at an annual charge of \$75.00 each.

Prof. Beard further states: "None of the large cities have given up public ownership for private enterprise, although in some of the smaller places this transfer has been made." I cannot understand how he could fall into such an error as this. The colossal failure of the municipally owned gas works of Philadelphia, only 90 miles from Prof. Beard's home, is known to the country over. He should know that the city owned plant was losing several hundred thousand dollars a year until it was leased in 1899 to a private company. Since that time the price of gas has remained the same, but the company has paid into the city treasury nearly \$3,000,000 a year as royalties on its lease, and the city has the right to order a reduction in the price of gas amounting to 20 cents a thousand feet, this reduction to be taken out of the city's royalties. And what about the abandonment of New York's garbage, incinerator, street lighting plant which was abandoned in 1907 after a year's operation, in which time it was found that municipal operation had cost twice as much as the cost of purchasing current from the Edison Company.

Prof. Beard seems shy on even his own home-town history. And how about Cleveland's disastrous attempt to municipalize the street railways there? They are now under private ownership. And this is true in Detroit too, though municipal ownership of street railways there was never anything but a technicality. When the city bought the system a body of indignant citizens went into court and forced the cancellation of the sale because, it is said, of the political activities which were manifesting themselves even before the city got title to the property.

Other statements of Prof. Beard are correct as far as they go, but do not tell the full story. For example, he does not tell you that the success of the Detroit plan has been due to the non-political character of its management and that the most active member of the Detroit public lighting commission is the owner of a score of successful electric and gas companies, and therefore brings private company efficiency into the operation of the Detroit municipal plant.

Nor does he tell you that under municipal ownership the per capita cost of street lighting in Pasadena is the highest in the state of California. Nor does he tell you that while Birmingham voted for municipal ownership in 1911, the plant is not yet built—a good indication of the delays which often occur under municipal ownership. Nor does he show how the accounts of the City of Chicago, which distributes current for its street lights, and the

Sanitary District of Chicago, which generates the current, are so juggled that the people of Chicago don't know how much their street lights really cost, and seem to be unable to find out.

I feel you will be as much interested in getting these facts before the people as you were in presenting Prof. Beard's statements, for they all have a bearing on the question at issue, and will help the people of Jacksonville in coming to a decision on this very important matter.

W. B. MISER.

From the Cow Ranch to the Pulpit, Lecture by Rev. Spoons Northminster Church, Thursday, Dec. 4. Admission 25c.

RARE ATTRACTIVENESS.

The writer had occasion to go into one of the stores yesterday, and was wonderfully surprised at the great magnitude of the gift sections in the Andre & Andre store.

The entire east room of the main floor has been rearranged and devoted to practical and useful gifts for everyone, including the little folks, and we really believe that if one of the city store's gift department was to be moved there, it would not contain a greater assortment of gifts.

That together with the mahogany balcony, multiplex display racks containing over one thousand pictures, without a doubt makes the Andre & Andre store the real shopping center.

The King's Daughters of Brooklyn church will give a play "Six Cups of Chocolate" tonight at the church. Tickets 15c. Social time and refreshments following.

CIRCUIT COURT ORDERS.

In the Circuit Court Wednesday the jury which heard the evidence in the suit of Grant Tannahill vs. W. T. Dodsworth brought in a verdict of \$245 in favor of the plaintiff. Other orders entered on the docket were as follows:

Law.
W. H. Fuller vs. John Holtman, assumpsit. Motion by defendant for a new trial.

Frank and Jerry Salby vs. Mary Salby, et al., partition. Default of all defendants except William, Harold and Francis Razany and cause continued for service.

J. Kennedy vs. Addie M. Kennedy, divorce. Leave to complainant to amend.

Mrs. Mary Frankenburg vs. Carl Frankenburg, divorce. Motion by complainant for a new trial.

"Little Women" Opera House today, matinee and night. Matinee prices, children 25 cents; adults 50 cents to \$1.00. Night prices 25 cents to \$1.50.

Bring Them In

If it has been a year or more since your fire extinguisher was filled it is needing fresh chemicals. If brought to our office, we charge nothing for reloading any tip over extinguisher sold by us—and only a very small price for others. It is dangerous to neglect the matter.

The Johnston Agency

THE JACKSONVILLE JOURNAL Established 1843 Published by JACKSONVILLE JOURNAL CO.

"Lowest rates for electricity are the most profitable," vehemently exclaims Superintendent Miser. Why not give us a chance to benefit the company by lowering the rates? It is up to the gentlemanly super.

"The city can be kept out of debt," through a sinking fund, and a fund created for a water system under the head of "municipal owned utilities" if the bond issue is endorsed.

In the articles by Supt. Miser recently printed in the Journal he fails to bring out one single reason why the issue of bonds proposed for the improvement and to maintain our municipal electric light plant is not a safe proposition for the city. He assures the people the company he represents will not lose money "in the long run" by the proposal to light the city or by the reduction of rates. We are glad that because we have no fight to make upon the Jacksonville company—we want them to continue to do business, and to make a reasonable profit. But as a matter of self-protection we believe the maintenance of our municipal plant is the surest way to secure reasonable rates—that it is a case of self-protection, not one of aggression.

"The great downward trend in electric rates" spoken of by Superintendent Miser, is known only by hearsay in this community—not by experience. Vote for the bond issue to maintain our municipal plant and we may learn of that trend spoken of by actual experience.

In case our municipal plant is sustained its regulation and conduct will be under the direct charge and supervision of the State Board of Utilities and of state law as will every railroad, interurban, electric or gas lighting plant in the state. As a matter of news, and to show our readers how the municipal ownership law, now in effect—safeguards municipal plants we quote section 13 of that law:

"Any city, when owning such public utility shall keep the accounts of such public utility distinct from her city accounts and in such manner as to show the true and complete financial results of such city ownership or ownerships and operation, as the case may be. Such accounts shall be so kept as to show actual cost to such city of the public utility owned, all costs of maintenance, extension and improvement, all operating expenses of every description, in case of such city operation; the amounts set aside for sinking fund purposes, if water or other service shall be furnished for the use of such public utility without charge; the accounts shall show as nearly as possible, the value of such service, and also the value of such similar service rendered by the public utility to any other city department without charge; and such accounts shall also show reasonable allowance for interest, depreciation and insurance, and also estimates of the amount of taxes that would be chargeable against such property if owned by a private corporation. The city council shall cause to be printed annually for public distribution a report showing the financial results in form as aforesaid of such city ownership or ownership and operation. The accounts of such public utility, kept as aforesaid, shall be examined once each year by an expert accountant who shall report to the city council the result of his examination. Such expert accountant shall be selected in such manner as the city council may direct, and he shall receive for his services such compensation, to be paid out of the income or revenues from such public utility, as the city may prescribe."

"It has been said the municipal plant will last till it is worn out," yet here is a sinking fund for payment of the bonds and a fund for maintenance promised.

JACKSONVILLE NEEDS ITS OWN LIGHT PLANT

Nov. 22, the Journal said: "In the matter of the issuance of bonds to rehabilitate and enlarge our municipal electric light and power system: The Journal favors the issuance of the bonds for the reason, as it believes, that it involves the expansion and material good of our city and its people. . . . without regard to the opinions of salaried experts in their juggling of figures."

The above was written with knowledge that the gentleman from Champaign employed by the Chamber of Commerce for a day, had been secured to prepare further figures, by the Jacksonville—and his reports to be published in—Courier. And, "It is interesting to note" cer-

tain facts which we take from his published report.

"In the first place, the expert figures that the cost of installation of the proposed municipal plant, using all available material in the old plant and assuming certain things in that connection which he does not believe are facts would be \$73,102.

"Prof. Bryant then figures cost of operation to the city: For street lighting, \$16,931; for pumping, \$21,870; total, \$38,801.

"It is interesting to note," says Prof. Bryant, "that the figures offered by the lighting company are: Street lighting, \$12,000; pumping, (approximately), \$15,184; total, \$27,184."

Supt. Miser gives a little information as to what we may do in case the bonds fail to carry and a contract is made with his company: "It should be borne in mind that the new municipal ownership law authorizes the city to purchase the street lighting system from us at any time in case there is dissatisfaction," and the city has the money.

There you have the opinion of two experts.

Is it not better to hold to what we have and to improve our own property?

The Journal still believes that a vote for the bonds to maintain our own plant is a vote for the best interests of the city of Jacksonville.

SOCIAL EVENTS.

The missionary society of the Union Baptist church met Wednesday with Mrs. A. A. Curry, near Pisgah. An excellent paper was read on the immigration question by Mrs. Samuel Camm. It was entitled "America for New Americans." Instrumental music was furnished by Miss Effie Lukeman. At the noon hour the hostess served a delicious dinner, which was followed by the foregoing program. At the business session, Mrs. John Sample was elected president for the ensuing three months. Those from this city were: Mrs. Jerry Cox, Mrs. R. C. Henley, Mrs. Joseph Jackson, Mrs. A. B. Williamson and Mrs. L. B. Turner.

Mr. and Mrs. Veerlin Daniels Remembered on 50th Wedding Anniversary.

As mentioned in Wednesday morning's Journal, Mr. and Mrs. Veerlin Daniels, celebrated their golden wedding anniversary at their home on North Fayette street, yesterday. There were forty members of the family present and all of the seven children were able to attend except Joseph H. Daniels of Council Bluffs, Ia. An elaborate dinner was served at the noon hour and in the afternoon a large number of neighbors and friends called to extend congratulations. A pleasing part of the afternoon's program was a recitation by a granddaughter, Mary Daniels and a song by three grandchildren, Mary, Alice and Virginia Daniels. They sang "Silver Threads Among the Gold" and "Just As We Used to Do." A poem was also read entitled "Our Golden Wedding Day" by Mrs. Daniels. This poem was composed by a son-in-law of Mr. and Mrs. Veerlin Daniels, Mr. Abner Frank Spencer of Westcliffe, Colorado, who was not able to attend the celebration on account of his school duties. The poem is well written and in the story he brings in each one of the children and the surroundings of the place in which they now reside. It is needless to say that the verses were heard with unusual interest. Many presents were received by the guests of honor and the day was happily spent.

BRENNAN'S are now showing the most complete line of toys in the city.

DEFINES FUNCTIONS OF PUBLIC UTILITIES

H. Merrifield of Springfield addresses Organization of Railway & Light Company Employees.

"The function of a public utility is to furnish service to its patrons and not commodities as does the ordinary retail or wholesale merchant," said H. Merrifield of Springfield at the banquet Wednesday evening of the Utility club, an organization of the employees of the Railway & Light Co. "On this account the public utility is often at a great disadvantage. While the business of the merchant rests largely on the quality of his goods, regardless of his personal qualities, the success of a public utility is dependent on a correct performance of duty by each one of the large number employed by the concern." Merrifield is superintendent of the commercial department of the Springfield Gas & Electric Co. and has given much study to public utility questions.

The address by Mr. Merrifield followed a delicious oyster supper served in the Doane building, south of the company office. Songs were sung by the "Linesman's Quartette" and a season of good fellowship was enjoyed before Mr. Miser, the superintendent introduced the speaker of the evening.

Will Demonstrate Daily Business College Work

We have reserved space at the "Made in Jacksonville" exhibit, which commences next Monday, and each day it will be possible at our booth to see something of the actual work which is done at this college in the regular courses. There will be

Special Demonstrations of Typewriting and of the Stenotype, that Wonderful Machine which has Simplified Shorthand.

The advent of the stenotype has marked a great advance in the development of shorthand and stenography and you will enjoy seeing the work of this simple yet marvelous machine.

There will be something to interest you each day at our booth and you are cordially invited to come and visit us and to watch the various demonstrations and learn of our college work.

BROWN'S BUSINESS COLLEGE

W. C. SPRINGGATE, Principal.

N. B. The number of students in this college studying the stenotype has doubled within recent months.

MEETING AT COURT HOUSE.

Light Question Will Be Discussed Friday Night—Citizens Generally Invited to be Present and Give Views.

Under the auspices of the Civic League an open meeting is to be held at the Court House Friday night to which the public is invited. Various speakers will present the matter of street lighting and the purpose is to have a free and open discussion of the whole subject.

BREAK IN TROLLEY

CAUSES DELAY
 Wednesday afternoon about 2 o'clock the trolley on the switch near the Centenary church broke and delayed traffic for a short time. Some men were soon at work on it and traffic was resumed after about fifteen minutes.

QUICK RELIEF

FOR RHEUMATISM.
 George W. Koon, Lawton, Mich., says: "Dr. Detchon's Relief for Rheumatism has given my wife wonderful benefit for rheumatism. She could not lift hand or foot, had to be lifted for two months. She began the use of the remedy and improved rapidly. On Monday she got up, dressed herself and walked out for breakfast." Sold by L. P. Allcott, druggist—Adv.

KONDON'S CATARRHAL JELLY

ISSUES WARNING TO PUBLIC SCHOOL OFFICIALS

State Fire Marshal Sends Out Bulletin—Warning Is Given To Instruct Children in Fire Drills, etc.

To the Principals and Superintendents of Schools of Illinois:

Gentlemen—I beg to call your attention to conditions as they exist in some of the schools of this state as found by our deputies on their tour of inspection. Reports which are coming to this office indicate that many of the schools of this state are not properly equipped with fire extinguishers or fire escapes, and also that in many of these schools accumulations of rubbish and other inflammable material are to be found.

Reports received so far this year indicate that at least 400 people will meet their death by fire in this state during the year 1913, and the very distressing feature of these fatalities lies in the fact that six out of every ten of the reported are of children under the age of ten years. This would seem to indicate that the schools of this state ought to make some concerted effort to properly instruct the children on the dangers of fire and the awful results of carelessness in connection therewith.

Our deputies have found three-story school buildings not provided with fire escapes and with narrow stairways and inadequate exits; they have found heaps of rubbish and other inflammable materials in the basements and garrets; they have found many schools that are not provided with fire extinguishers of any kind, and many others having extinguishers that have not been charged within the memory of man, and the janitor and teachers have but the faintest idea of their proper use; they have found furnace pipes in the basements as near the joists and floors that the woodwork was charred and carbonized and in a condition to readily ignite; and they have found many schools in which no fire drill is practiced and where an alarm of fire would result in disorder, demoralization and probably fatal results.

I trust that as the guardian of the children of this state, the one to whom the fathers and mothers have entrusted their most precious belongings, that you will give this question of fire hazard the attention which it deserves.

I would recommend that all school buildings of over two stories in height be equipped with proper fire escapes; that all schools be provided with chemical extinguishers of sufficient number to insure reasonable safety, and that some member of the local fire department instruct the janitor and teachers and the pupils in the proper use of these extinguishers.

I would suggest that you personally go over the heating apparatus in your building to see whether or not the same is in safe condition and that the flues and chimneys of the building be examined by some competent person to pass upon their safety.

Above all, I would suggest that some sort of fire drill be practiced at frequent intervals and that the teachers give some time to the instruction of their pupils on the subject of fire dangers, paying particular attention to bonfires, matches and carelessness with gasoline and kerosene.

I am most respectfully yours,
F. R. Morgardidge,
Acting State Fire Marshal.

TESTIMONY RESUMED.
Baltimore, Md., Dec. 2.—The taking of testimony in the government's anti-trust suit against the American Telephone and Telegraph company which was concluded in Chicago last Friday, was resumed here.

CONFESSES TO HAVING SUPPLIED STRIKERS WITH AMMUNITION

TRINIDAD, Colo., Dec. 3.—Robert Ulich, president of the local union of United Mine Workers of America, tonight confessed before the military commission to having supplied strikers at the Ludlow tent colony with arms and ammunition on October 27th, 1913, the day preceding the battle of Ludlow in which one man was killed.

Announcement of this confession was made by members of the military commission late tonight.

Ulich stated that he purchased the munitions of war and gave them to the men at Ludlow for defensive purposes.

Ulich is one of those union officials who were indicted by the federal grand jury at Pueblo yesterday, charged with violation of the Sherman anti-trust law.

COPPER MINERS ATTACK MINE GUARDS AT CALUMET

Calumet, Mich., Dec. 3.—A charge of dynamite placed under the tracks of the Mineral Range railroad near Mohawk in the copper strike district exploded shortly before a passenger train was due to pass. While fifteen deputies and mine guards were escorting men to work at the Champion mine at Palmesdale tonight, they were fired upon by a party of about forty men. The fire was returned and many shots were exchanged. The deputies were unhurt and the members of the attacking party fled, some of them barricading themselves in a nearby house.

Sheriff Cruise and a force of deputies arrested sixteen men and took five rifles and eleven revolvers from the prisoners.

PLAN FOR PEACE CENTENNIAL

Richmond, Va., Dec. 3.—The American committee in charge of arrangements for celebrating the one-hundredth anniversary of peace among English speaking peoples met here today for a two day conference with a view of further perfecting the plans for its campaign. Today's meeting was presided over by Governor Mann of Virginia and at the session tomorrow Andrew Carnegie will occupy the chair. Several of the subcommittees previously appointed by the general committee submitted their reports at today's session and others will report tomorrow. Among the matters to be considered by the conference is the proposition of organizing an "Association for the Establishment and Maintenance for the People of the City of New York of Museums of Peaceful Arts;" the suggestion of concluding the peace celebration with a week's celebration at the Panama exposition in San Francisco; to arrange for celebrations on special days of the peace between the United States and France, Germany, Norway, Sweden, Holland, Italy and other nations, and to map out a program for celebrations in various states and cities of the country.

"DEKES" MEET IN BOSTON.

Boston, Dec. 3.—Delegates from two scores of the leading universities and colleges of America are in Boston attending the annual convention of the Delta Kappa Epsilon fraternity. The convention was formally opened at the Hotel Somerset today and will be continued until Saturday. Several features of notable entertainment will be included in the program.

Delta Kappa Epsilon was established at Yale in 1844 and is the only great intercollegiate fraternity of strictly New England origin, although from its formation it has been strong in the south and west. It has two chapters in Canada and several on the Pacific coast.

RIVERS AND HARBORS CONGRESS OPENS AT WASHINGTON

Tenth Annual Convention Attracts Many Delegates—Will Give Impetus To Water Development.

Washington, Dec. 3.—If the movement for the development of the nation's waterways is to be advanced through intelligent discussion by men well qualified to speak on the subject, then it is certain to receive a decided impetus from the tenth annual convention of the National Rivers and Harbors congress, which convened in the capital today for a three days' session. The gathering is the largest and most representative ever assembled in this country in the interest of waterway development. Senators, representatives, diplomats, captains of finance and industry, governors of many states and others high in official life were included in the attendance at the formal opening of the convention today.

Heading the list of speakers is President Wilson who is expected to define for the first time his position on the improvement of the internal waters of the country. Ambassador da Gama of Brazil, John D. Hazen, Canadian minister of marine and fisheries, and Secretary of War Garrison, recently returned from an official inspection of the Panama canal, are other notables on the list of speakers.

The general sessions of the convention will be presided over by Senator Joseph E. Ransdell of Louisiana, the president of the congress. Senator Fletcher of Florida, and Representative Burgess of Texas, Small of North Carolina, and Moore of Pennsylvania, will discuss the several projects for waterways to link the Mississippi and the Atlantic, the Mississippi and the Rio Grande, and the inter-coastal waterway from New England to Florida.

"The Waterways of the Pacific Northwest" are to be described by Senator Jones of Washington. To Congressman Knowland of California, commissioner of public utilities of New Orleans, has been assigned the subject of municipally owned terminals.

Other speakers will discuss canal projects and river and harbor improvement that are the particular interest to New England, New York, the region of the great lakes, the Pacific coast and other sections of the country.

At the sessions tomorrow evening John Barrett, director general of the Pan American union, will deliver an illustrated lecture in description of the South American republics and what they are doing in the way of improving their rivers and harbors.

CO-OPERATIVE PACKING PLANT.

La Crosse, Wis., Dec. 3.—A project to establish a co-operative packing plant is to be considered by the Wisconsin organization of the American Society of Equity at its annual convention which began here today. Plans for extending the co-operative movement in other directions also will be discussed during the three days that the convention will be in session. The annual reports presented by the officers of the association at the opening session showed a record breaking increase in membership during the past year.

AMERICANS WED IN MANILA.

Manila, P. I., Dec. 3.—An American military wedding was celebrated in Manila today, the bride being Miss Mary McCain, daughter of Col. Henry P. McCain, adjutant general of the department of Manila, and the bridegroom, Lieut. Emory T. Smith of the Fifth field artillery. Lieut. Smith is at present aide to Major Gen. J. Franklin Bell, commanding the Philippine department.

ELEVATOR DROPS SIX STORIES WITH FULL LOAD OF PASSENGERS

CHICAGO, Dec. 3.—An elevator in the Criminal Court Building dropped six stories today with a full load of attorneys, political leaders and men under indictment in the alleged vote fraud cases recently investigated by the grand jury. The men had been in Judge Brentano's court seeking a change of venue to Judge Walker. The elevator fell, it is said, because the men engaged in a scuffle as soon as the door closed on them. Both the Hearst-Harrison and the Sullivan factions of the Democratic party were reported in the jam in the car. Feeling ran high as a result of the pending court battle over the state's attorneys election. Some were pushed against the elevator operator, he lost control of his lever and the car dropped. No one was seriously hurt, although bruises were plentiful.

"OLD PROBS" 75 YEARS OLD.

Washington, Dec. 3.—Cleveland Abbe, the noted meteorologist, familiarly known as "Old Probs," celebrated the 75th anniversary of his birth today in the circle of his family and friends. The fact that for more than forty years, or ever since he became connected with the meteorological bureau of the government, he has been the most abused man in the country, has evidently had no depressing effect upon his enjoyment of life and of a happy old age. Mr. Abbe was a mathematician, astronomer, surveyor and meteorologist of note before he became connected with the government service, but his popular fame rests principally upon the fact that the idea of issuing daily weather maps and weather reports covering the North American continent, originated with him. He was born in New York city and was educated at the College of the City of New York, the University of Michigan and Harvard university, receiving many degrees from A. B. to LL. D. In 1860 he became assistant to Dr. B. A. Gould, of the United States coast survey. Four years later he became assistant at the imperial observatory, Foukaya, near St. Petersburg, Russia, and two years later assistant at the United States naval observatory. In 1868 he became director of the Cincinnati observatory, where he established a system of daily weather maps of the United States government and in 1871 Mr. Abbe was made professor of meteorology in the United States signal service, and in 1891 in the weather bureau of the United States department of agriculture. Dr. Abbe is a member of a large number of learned societies and has been awarded honorary degrees by many colleges and universities in the United States, in Canada and in various countries of Europe. He has accompanied many scientific expeditions, acted as delegate to various scientific conferences and has been one of the most active factors in distributing knowledge of meteorology by lectures and books.

BUILDING LARGEST TELESCOPE.

Quincy, Mass., Dec. 3.—Materials were received at the Lake River ship yards here for the frame of the telescope which will be the largest in the world when it is set up on Mt. Wilson, near Pasadena, Cal. The Mt. Wilson observatory is under the direction of the Carnegie Institute and the telescope which it has ordered will be without a rival. Within another week or two the work of assembling the great steel frame will be commenced. The Fore River company is to build the frame and machinery and set them up, and the contract for these will amount to about \$1,000,000. The local company will have nothing to do with the lens, which will measure 100 inches in diameter.

SPUGS WILL PLAY HOST TO EVERY LONELY PERSON IN NEW YORK

NEW YORK, Dec. 3.—The total organization of Spugs, as members of the "society for the prevention of useless giving" style themselves, plan to play havoc on Christmas to every lonely person in New York City. There is to be a Christmas party in Grand Central Palace for the lonely, a Christmas tree, music, dancing, singing and refreshments. Announcement of the plan was made by Kate Douglas Wiggin at a spug meeting tonight. The number of guests expected is placed at 20,000. To defray the expense of the entertainment the spugs are making voluntary contributions, placing their offerings in a huge paper pie at headquarters. The pie is to be opened on Christmas afternoon.

\$700 IN FINES WILL BE DIVIDED AMONG INJURED OR NEEDY DRIVERS

CHICAGO, Dec. 3.—Fines totaling \$700 levied during the past season of the American Trotting association will be divided among injured or needy drivers who participated in race meets it was decided today by the board of appeals of the association.

CONFERENCE ON HOUSING.

Cincinnati, Dec. 3.—Delegates representing more than one hundred cities of the United States and Canada are in attendance at the Third National Housing conference which opened here today for a session extending over three days. Among the delegates are many noted men of extensive experience in housing matters and it is believed that the movement for improved housing will receive a great impetus from this conference. Robert W. de Forest, the president of the National Housing association, is the presiding officer at the sessions of the conference which will, in a general way, discuss the practical needs of growing cities and towns and try to evolve a plan for gradually eliminating the slum districts and replacing them with cleaner, better and more sanitary housing facilities. Among those who will take part in the discussions are President G. Frank Beer of the Toronto Housing company; J. G. Schmidlapp of Cincinnati; John R. Richards, chief housing inspector of this city; William Drummond, an architect who has made a specialty of small houses; C. L. Close, manager of the bureau of safety, sanitation and welfare of the United States steel corporation, and many others of equal prominence.

CELEBRATED BIRTHDAY.

F. J. Nagle, one of the long time and highly respected residents of Jacksonville celebrated his seventy-eighth birthday Tuesday. There was no formal observance of the day but nevertheless Mr. Nagle received congratulations from a large number of friends who happened to know of the important anniversary. Mr. Nagle has been a Jacksonville citizen for a great many years and his record has been such as to entitle him to the good opinion of everyone. Mr. and Mrs. Nagle live at 718 North Main street which is also the home of Mr. and Mrs. John E. Hall. Besides Mrs. Hall they have one other daughter, Mrs. John Hoffman of Springfield.

AVIATOR'S FUNERAL HELD.

Raleigh, N. C., Dec. 2.—The funeral of Lieut. Eric L. Ellington, U. S. A., who was killed in a fall from an aeroplane at San Diego Monday, Nov. 24th, was held at Clayton.

For Bright Eyes and Clear Nose

Remarkable Catarrh Cure That Gets Right into the Affected Parts and Stops Gatherings.

S. S. S. is a Wonder for the Eyes, Nose and Throat.

It is definitely known that catarrh can be cured by the simple process of inoculating the blood with antitoxin remedies that stop inflammatory conditions throughout the mucous linings of all the organs of the body. This is done with the famous Swift's Sure Specific, or as it is widely known, S. S. S. It is taken into the blood just as naturally as the most nourishing food. It spreads its influence over every organ in the body, through all the veins and arteries, and enables all mucous surfaces to exchange inflammatory acids and other irritating substances for arterial elements that effectively cleanse the system and thus put an end to all catarrhal pollution. S. S. S. cleans out the stomach of mucous accumulations, enables only pure, blood-making materials to enter the intestines, combines with these food elements to enter the circulation, and in less than an hour is in the process of purification. You will soon realize its wonderful influence by the absence of headache and steadily improved nasal condition. For special advice on any blood disease write to the Swift Specific Co., 223 Swift Bldg., Atlanta, Ga. Do not delay to get a bottle of S. S. S. from your druggist. Always insist that you want S. S. S. and nothing else. Beware of all attempts to sell you a substitute.

ENGINE OUT
ON MAIDEN TRIP

LOCOMOTIVE BUILT ENTIRE AT
C. P. & ST. L. SHOPS.

Machinery Worked Perfectly on Big Mass of Steel Finished Yesterday Under Direction of George Imgrund—Story of No. 68's First Journey.

Number 68 is out; her first trip a grand success; she works like a thing of life; see how beautifully she steams; moves off as though she had been on the rails a year; about the proudest man in the city is George Imgrund and after him come the foremen, mechanics and laborers and by all means don't forget the Journal reporter who has watched the progress of the noble machine from the start and has written many paragraphs about her; he was just about as anxious and pleased as any of them.

Heretofore repairing has been the sole occupation of the force at the car shops even when they had the greatest force but Mr. Imgrund was hardly satisfied with such commonplace work entirely so the managers of the road, Mr. Ramsey, president and C. S. Branch, superintendent of motive power turned him loose and let him see what he could in the actual construction of a new locomotive from the rails up.

Particulars will be given later and just now the account will be confined to the trial trip. Mr. Imgrund was determined to get her out this week if—well—just what will not be said unless something broke down 68 had to leave the shops this week. Every foreman and every mechanic and every laborer who had anything to do with the work was on the alert and many dreams have been the result. The Journal will not say which one of the men had a bad dream. The man is too good a friend to be held up for fun but he did have a dream and it was to the effect that Mr. Imgrund was taking 68 out on her trial trip and she went all to pieces, scalded the master mechanic and did lots of bad things all around. Now it will not be said that the dreamer believed in the dream but anyhow he came around, looked her over and didn't take a ride on her the first time.

Getting Up Steam.

"Come down at half past two Wednesday afternoon" Mr. Imgrund said to the reporter and I think we'll be ready to go out and down the man of the pencil went. As he entered the shop wood smoke was rising from the smoke stack of the fine machine which seemed to say "come on" I'll be ready for you in a little while" The reporter went on and looked with admiration on the engine which looked so like a thing of life. Mr. Imgrund was carefully scrutinized every part of the complicated machine of run engine is not now what it was years ago when there was no air pump, no injectors and a lot more complicated machinery about it. The least little thing in a valve, a joint, a dozen and one things might hinder the whole thing from working. Wrenches, chisels, bars, jacks, and a lot of things were brought into requisition and all seemed ready for business. The tender was filled with water and coal and was standing along side of the blacksmith shop as if saying, "What's all this about anyhow? I feel like a hen with her tail pulled out or I feel like the tail without the hen."

Thomas Heaton stood at the furnace door and piled in something less than a cord of wood but the engine seemed to say that it wasn't the kind of wood it wanted and a lot more complicated machinery about it. The least little thing in a valve, a joint, a dozen and one things might hinder the whole thing from working. Wrenches, chisels, bars, jacks, and a lot of things were brought into requisition and all seemed ready for business. The tender was filled with water and coal and was standing along side of the blacksmith shop as if saying, "What's all this about anyhow? I feel like a hen with her tail pulled out or I feel like the tail without the hen."

At last Mr. Imgrund seemed to be satisfied and he invited the reporter to take the fireman's side of the engine while the master mechanic took hold of the throttle. It was a supreme moment. The test of many months work was to be made and the trial was at hand. What kind of a report would be made to Mr. Ramsey and Mr. Branch? Would they have to hear the humiliating word that 68 wasn't a success or would they learn with pleasure that she went all right? It would soon be decided. Mr. Imgrund sounded the whistle, the reporter rang the bell and the throttle was pulled. For an instant the fine machine seemed to hesitate and then obeying her master she moved majestically to the platform and was rolled to the west end and backed to the tender which was duly attached and then she looked like an engine indeed.

Inasmuch as the reporter had taken so much interest in the splendid machine from the start he was permitted to throw into the furnace the first few shovelfuls of coal which he did with a will. He didn't stop at one or two but at several dozen and then resigned the shovel to Thomas Heaton and he wasn't jealous when he saw how much more scientifically Thomas handled the black diamonds. The reporter can shovel coal but exactly as a steady diet he would hardly undertake it at present.

Trio to Savage Station.

Getting track orders Mr. Imgrund decided on a short trip so naming the throttle with Charles Cobb at the furnace door, Thomas Heaton with oil cans in hand, J. W. Clancy, machine shop foreman, W. J. Doerflinger, boiler shop foreman, C. H. Talsley and the reporter he steamed out on the main track. With the exception of some trifling matters the beautiful machine went right off from the start. Away she sped across bridge, northward and seemed to shout back, "Give me steam and let me go." Mr. Imgrund did it and off she went a few miles and then the careful driver stopped to see

that all was right. Of course the first trip took more oil and Heaton went over her again and again while Cobb, with wrench in hand tightened up some nuts here and there and saw that all was right as far as he was concerned.

On and on she went like a bird set free from its cage till Savage was passed and she was stopped again and while Heaton was oiling up Mr. Imgrund and the reporter climbed out on the bank and took a good look at the handsome machine as she stood there as if saying she was ready to proceed at any time.

After everything had received attention the homeward trip was begun and finished without incident and it is safe to say that Mr. Imgrund went home with a heart several tons lighter than it was in the morning. Of course he had all the reason to suppose the engine would behave properly but it is impossible for a person not acquainted with machinery and locomotives to realize what it means to build one from the ground up. It is a task requiring the highest degree of skill and all around ability and the great success of the work is a high testimonial of the great ability of Mr. Imgrund who has had so many things to contend with. He has been cramped for room and in every way has been obliged to employ a superior degree of skill and ability and he has not been found wanting in any respect.

Due credit should also be given the foremen of the main departments, W. J. Doerflinger of the boiler shop, J. W. Clancy of the machine shop and William Saner of the blacksmith shop. Other minor foremen and their subordinates did their whole duty and in this connection it will be mentioned that there is in the engine an important invention of Mr. Ramsey which will be described later on.

It is a pleasure to mention the names of the foremen of the various departments and the men under them who have had some part in the work on the new machine.

George Imgrund, superintendent, J. Clark Rothwell, time keeper.

RUB PAIN FROM BACK
ALL BACKACHE GONE

Rub Backache and Lumbago Right Out With a Small Trial Bottle of Old St. Jacobs Oil.

Ah! Pain is gone.

Quickly?—Yes. Almost instant relief from soreness, stiffness, lameness and pain follows a gentle rubbing with "St. Jacobs Oil."

Apply this soothing, penetrating oil directly upon the ache, and like magic, relief comes. "St. Jacobs Oil" is a harmless backache, lumbago and sciatica cure which never disappoints and doesn't burn the skin.

Straighten up! Quit complaining! Stop those torturous "stitches." In a moment you will forget that you ever had a back, because it won't hurt or be stiff or sore any more. Get a small trial bottle of "St. Jacobs Oil" from your druggist now and get this lasting relief.

TRANSPORT PRAIRIE WITH 800
MARINES ARRIVES IN PENSACOLA

PENSACOLA, Fla., Dec. 2.—The United States Transport Prairie, with about 800 marines on board, arrived from Philadelphia this afternoon. Instead of stopping at the navy yard, the transport steamed up the harbor to the city and cast anchor with the warships here. This action was not explained and has given rise to the rumor that additional orders have been received or are expected for the transport and marines to proceed to the Mexican coast.

KANSAS POOR COMMISSIONER
DECIDES THAT DOGS ARE A LUXURY

TOPEKA, Kas., Dec. 2.—A dog is a luxury decided the Poor Commissioner of Shawnee county today, when he declined to aid a family because it harbored such a pet. "If a family is poor, it has a dog," said H. C. Bacon, commissioner of the poor, in making his ruling. "It is very poor, it has two dogs. There is nothing so nice as a dog, but like Oliver Twist, they do eat tremendous." Dogs are a luxury and people with luxuries cannot expect county aid.

BAD BREATH

Dr. Edwards' Olive Tablets Get at the Cause and Remove It.

Dr. Edwards' Olive Tablets, the substitute for calomel, act gently on the bowels and positively do the work.

People afflicted with bad breath find quick relief through Dr. Edwards' Olive Tablets. The pleasant, sugar-coated tablets are taken for bad breath by all who know them.

Dr. Edwards' Olive Tablets act gently but firmly on the bowels and liver, stimulating them to natural action, clearing the blood and gently purifying the entire system.

They do that which dangerous calomel does without any of the bad after effects.

All the benefits of hasty, sickening, gripping cathartics are derived from Dr. Edwards' Olive Tablets without gripping, pain or disagreeable effects of any kind.

Dr. F. M. Edwards discovered the formula after seventeen years of practice among patients afflicted with bowel and liver complaint with the attendant bad breath.

Dr. Edwards' Olive Tablets are purely a vegetable compound mixed with olive oil, you will know them by their olive color.

Take one or two every night for a week and note the effect. 10c and 25c per box. The Olive Tablet Company, Columbus, O.

WHAT'S INDIGESTION?

WHO CARES? LISTEN

"Pape's Diapiesin" Makes Sick, Sour, Gassy Stomachs Surely Feel Fine in Five Minutes.

Time it: in five minutes all stomach distress will go. No indigestion, heartburn, sourness or belching of gas, acid, or eructations of undigested food, no dizziness, bloating, foul breath or headache. Pape's Diapiesin is noted for its speed in regulating upset stomachs. It is the surest, quickest and most certain indigestion remedy in the whole world, and besides it is harmless.

Millions of men and women who eat their favorite foods without fear—they know Pape's Diapiesin will save them from any stomach misery.

Please, for your sake, get a large fifty-cent case of Pape's Diapiesin from any drug store and put your stomach right. Don't keep on being miserable—life is too short—you are not here long, so make your stay agreeable. Eat what you like and digest it, enjoy it, without dread of rebellion in the stomach.

Pape's Diapiesin belongs in your home anyway. Should one of the family eat something which doesn't agree with them, or in case of an attack of indigestion, dyspepsia, gastritis or stomach derangement at daytime or during the night, it is handy to give the quickest, surest relief known.

THIS IS CERTAIN

The Proof That Jacksonville Readers Cannot Deny.

What could furnish stronger evidence of the efficiency of any remedy than the test of time? Thousands of people testify that Doan's Kidney Pills have brought lasting results.

Home endorsement should prove undoubtedly the merit of this remedy. Years ago your friends and neighbors testified to the relief they had derived from the use of Doan's Kidney Pills. They now confirm their testimonials. They say time has completed the test.

John Minter, 423 South East St., Jacksonville, Ill., says: "I gladly recommend Doan's Kidney Pills, as I know them to be worthy of praise. I have been telling of my experience with this remedy for many years. I took Doan's Kidney Pills for pain in my back and other symptoms of kidney trouble and found them effective. I always advise the use of this remedy, when I have an opportunity."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

RUSSIAN MINISTER TO SWEDEN
PRESENTS LETTERS OF RECALL

STOCKHOLM, Dec. 2.—The Russian minister to Sweden, A. A. Savinsky, today presented his letters of recall to the king. M. Savinsky is said to be compromised by an espionage affair, in which several subjects are also involved. He had been mentioned frequently in connection with the impending divorce between Prince William of Sweden and the Princess who was the Grand Duchess Marie Pavlovna, daughter of the grand Duke A. Alexandrovich of Russia.

PEORIA PUBLISHER IS
RE-NOMINATED BY WILSON

WASHINGTON, Dec. 3.—Henry M. Pindell, the Peoria, Ill., publisher was renominated today by President Wilson for ambassador to Russia.

Pindell's nomination failed in the extra session after it became a center of attraction because of publication of certain alleged correspondence with Senator Lewis.

Winfred T. Denison of New York was re-nominated for secretary of the interior of the Philippines.

How to Bankrupt the Doctors.

A prominent New York physician says, "If it were not for the thin stockings and thin soled shoes worn by women the doctors would probably be bankrupt." When you contract a cold do not wait for it to develop into pneumonia but treat it at once. Chamberlain's Cough Remedy is intended especially for coughs and colds, and has won a wide reputation by its cures of these diseases. It is most effectual and is pleasant and safe to take. For sale by all dealers.—Adv.

Y. M. C. A. BUSINESS MEN
WILL PLAY PEORIA TEAMS.

Will Open Volley Ball Season With Two Games Friday on Home Floor.

The Greens and the Blacks, the two volley ball teams of Jacksonville business men at the Y. M. C. A., are practicing hard for a contest Friday evening at the association building with two business men's teams from Peoria. Last year the local men played Springfield, but they have never engaged Peoria and they expect a close contest as the boys up there have the reputation of being one of the strongest volley ball organizations in central Illinois.

The men on the two Jacksonville teams who will each play a game Friday evening are:

Greens—Marcy Osborne, Wilfred Ayers, Walter Bellatti, John T. Hoffman and Percy Jenkinson. Blacks—E. P. Brockhouse, Ed. Hopper, F. E. Baldwin, E. M. Johnston and Walton Boxell.

TO REPORT THIS WEEK.

Washington, Dec. 2.—Chairman Garrett of the house lobby inquiry committee said that he expected to submit the report of the committee to them on this week.

WORLD'S LATEST FINANCIAL AND MARKET NEWS

FINAL HOUR OF TRADING BRINGS RALLY IN STOCKS

PRICES MOVE UP VIGOROUSLY
TOWARD END OF SESSION.

Final Quotations for Representative
Shares Show Gains of Two Points
in Some Instances—Bearish News
is Ignored.

New York, Dec. 3.—In the last
hour of today's stock market trad-
ing became animated and prices mov-
ed up vigorously. Prior to that time
the market was virtually on a dead
level, with business cut down to a
low point. The undertone was firm
throughout. Final quotations for the
representative shares showed gains
of two points in some instances. Short
covering apparently was the main
factor.

In the events of the day that bore
upon affairs of Wall street the stock
market took little interest. Bear-
ish news was ignored the market
has been giving no heed recently to
the steady outpouring of unfavor-
able reports concerning industrial
and financial conditions probably be-
cause their influence has been dis-
counted.

Today traders learned of further
reductions in working force by rail-
road and industrial corporations.
Statistics of pig-iron production
considered reliable barometer of
steel trade conditions disclosed a de-
cline from a daily average of 82,153
tons in October to 74,453 in Novem-
ber. Sentiment abroad was depressed
by the French ministerial crisis
which made more uncertain the
prospects for the French government
loan to the outcome of which great
importance is attached in indicating
the general European financial out-
look.

The stock market's advance in the
face of these influences apparently
was in response to technical condi-
tions.

URGES REFORMS IN VARIOUS COURT METHODS

MRS. JOSEPH T. BOWEN ADDRESSED NATIONAL SUFFRAGE CONVENTION.

Maintained That Women After Arrest Rarely Have Care Needed—Surroundings Immediately Place Her at Disadvantage.

Washington, Dec. 3.—When women have the vote, Mrs. Joseph T. Bowen, of Chicago, told the National Suffrage Convention today they will give members of their own sex a fair show in the police courts. Mrs. Bowen urged the need of women police, women jurors and reform of the courts and penal institutions to help women and children.

"From the time of the arrest of a woman," said Mrs. Bowen, "to the final disposition of her case she is handicapped by being in the charge of and surrounded by men, who naturally cannot be expected to be as sympathetic and understanding as one of her own sex. In the police station she is at a disadvantage, for such places of detention in most of our large cities are not fit for human habitation. In Chicago the majority of them are dark and unsanitary. The women are herded together, the innocent with the guilty, the clean with the unclean, the young girl with the prostitute. The sleeping accommodations are vile.

"When the woman appears for her preliminary hearing she is tossed and untidy as the result of being without proper toilet accommodations and is therefore apt to create an unfavorable impression. In all police stations separate rooms or cells should be provided, with plenty of light and air and sleeping and toilet accommodations for the women."

Mrs. Bowen told of what had been done to meet this situation in Chicago by the establishment of the Court of Domestic Relations and the Morals Court. The latter hears the cases of women charged with improper conduct.

The percentage of mental deficiency is greater among women inmates of correctional institutions, she said, than among the men. "If women fail and commit crimes because of this mental deficiency it would seem more than ever necessary to have them examined by a psychopathic expert and committed—not to prisons—but to such reformatories as Bedford, whose scientific treatment and humane care has made it one of the few hopeful spots in our wretched prison system."

Mrs. Bowen declared that conditions in the factories and stores that employ women drove many to life of shame.

"America," she said, "has every reason to be proud of the virtue of its working women who have so bravely withstood the many pitfalls which industry and commercialized vice have spread for their unwary feet. Women, however, understand more fully than do men the physique and the spirit of their own sex. They do not want to be obliged to face the choice of a life starved of everything they consider worth while or a life of dishonor and may we hope that when they have the vote they will realize through this sympathetic understanding the danger to wage-earning women, and they will then strive for a less fatiguing and shorter day and a minimum wage which will put in the hands of the working woman a very effective weapon of defense.

"The Juvenile Court should be equipped with a physician who would examine the child carefully and if possible remedy his physical defects. He should also be examined by a psychologist who would study his family history and ascertain how far his heredity had influenced his career. His neighborhood and home environment should be studied and changed if necessary, and trained conditions which brought about his downfall.

"Overwork and underpay of parents is responsible for much neglect of children. Scott Nearing, an authority on wages in this country, says that three-fourths of the men in American industry cannot provide decently for more than three children, one-half cannot provide for more than two children and one-third cannot make adequate provision for one child.

"In addition to our Juvenile Court we need a court for the juvenile adult—that is for the boy between the ages of 17 and 21, who is too old for the Juvenile Court. Physicians assert that the boy at this age is still in the later adolescent period. These years are his formative years, and yet at this time we are so often trying reformatory and punitive measures. This court might be called the 'Boys' Court, and have connected with it a public defender as well as a public prosecutor, the former to investigate and defend all cases of first offenders. The establishment of such a court would, I believe, keep many a boy from a criminal career."

California Woman Seriously Alarmed

"A short time ago I contracted a severe cold which settled on my lungs and caused me a great deal of annoyance. I would have had coughing spells and my lungs were so sore and inflamed I began to be seriously alarmed. A friend recommended Chamberlain's Cough Remedy, saying she had used it for years. I bought a bottle and it relieved my cough the first night, and in a week I was rid of the cold and soreness of my lungs," writes Miss Marie Gerber, Sawtele, Cal. For sale by all dealers.—Adv.

TREASURY SECRETARY MAKES FIRST REPORT

REVIEWS WORK OF ADMINISTRATION FOR THE PAST YEAR.

Points to Advantage of Altruistic Government Agency in Financial Affairs of Country—Believes that Currency Legislation Will Be Great Aid to Country at Large—Urges International Action to Prevent Disasters at Sea.

Washington, Dec. 3.—Secretary McAdoo's first report to Congress, delivered today, is largely confined to a review of the achievements of the Treasury Department in matters that have been of nation-wide interest; to recommendation for increased appropriations for bureaus under his authority and for legislation, which, he declares, necessary to the better conduct of the government and the protection of the people.

The secretary discussed at some length the subject of currency legislation reviewing the activities in his department related to it. He speaks of an unrest in business circles following the beginning of the special session of Congress in April, refers to a "propaganda of pessimism which designedly or not, produced a condition of extreme nervousness and tension" and points to his announcement in June that Treasury was ready to issue \$500,000,000 of emergency currency under the Aldrich-Vreeland Act to prevent restriction of credits and to ease any situation.

The Moving of Crops.

Mr. McAdoo details the Treasury's offer to loan to banks of the country money to move the fall crops. The sum of \$46,500,000 out of \$50,000,000 estimated to be needed (as apportioned among the states.

"It was essential," says the Secretary, "that the action of the department should be non-partisan and non-political; the crops of Republicans, Democrats and Progressives, and all other classes of people had to be moved, and the earnest effort of the department was to have the benefits of this action diffused as widely and impartially as possible."

After praising the psychological value of these incidents, the report continues:

"They demonstrate clearly that any improvement in our financial system which will permanently establish confidence will in itself be an immense gain, and if that improved financial system assures the opportunity to secure at all times the necessary funds and credits to meet the expanding and legitimate needs of the commerce and industry of the country, it will be an achievement of enduring benefits.

"These incidents also show conclusively the enormous value of an altruistic governmental agency in the financial affairs of the country. So long as the government has the power to intervene in a beneficent and unselfish way, the danger of panics and of unjust practices will be largely, if not wholly, destroyed. This is one of the chief objects sought in the proposed reformation and reorganization of our banking and currency system. The people of the country are to be congratulated upon the early prospect of sound legislation on this vitally important subject. Should the Congress enact the fundamentals of the pending protection will be provided against recurring commercial crises and that adequate facilities will be created for that legitimate and sound expansion of credits so vital to the prosperity of our great and growing country."

Revenues From Tariff.

Of the new tariff act Secretary McAdoo says it has not been in force a sufficient length of time to make possible an accurate estimate of its ultimate revenue producing powers. He asks Congress to impose a nominal of one per cent proof gallon on all alcohol withdrawn for dematuration—and legislation requiring every dealer in leaf tobacco to make an inventory of stock January 1, of each year and make a report of his transactions quarterly or monthly, and that every dealer be required to give bond.

The present oleomargarine law is declared to be unsatisfactory and the government is said to lose more taxes from illicit practices in oleomargarine than through moonshine stills. The difference in the tax on colored and uncolored "oleo" is held responsible for the loss and Congress is asked to impose a flat nominal tax without any difference for color with provision for individual stamped or original packages of certain sizes adequately marked and safeguarded. The law governing the sale of adulterated butter is declared to have brought about unfortunate conditions through the difficulty of its just enforcement.

Among his principal recommendations to Congress the secretary placed the following:

Enlargement of the Public Health Service and a closer co-operation with state authorities to prevent and stamp out epidemics of disease.

Building of four revenue cutters, for need of which the Secretary points out, the service is seriously crippled.

Consolidation of Departments Suggested.

Consolidation of the Revenue Cutter and Life-Saving Services into one organization to be known as the Coast Guard. Such a consolidation, the Secretary says, would increase the efficiency of each service with the idea that the new Coast Guard should become a first naval reserve in time of war. The increase in cost would be about \$400,000. In that connection the Secretary also recommends passage of legislation for the retirement of livesavers on pension, and declares that unless some such measure is made law, the efficiency of the service

will be impaired and it will become increasingly difficult to obtain good men. He gives point of his argument by showing that the Revenue Cutter and Life-Saving Services saved 4,423 lives in 1913 and salvaged property worth more than \$16,000,000.

Establishment of Revenue Cutter headquarters at Louisville or Cincinnati, at St. Louis or some other point on the Upper Mississippi and at Helena, Ark., or Vicksburg, Miss., is urged as a measure for the saving of life in the floods time in the Ohio and Mississippi valleys. Three light draught cutters to cost about \$80,000 each are recommended. With the rivers at normal stage they would be used in patrol to enforce the navigation and motor boat laws.

Interest From Banks.

The report refers to the requirement that banks which hold government deposits made April 30, 1913, pay interest at two per cent, declaring that it means an annual revenue of \$2,000,000 to the government and showing that if such a regulation had been made in 1897 the government would not have received in interest more than \$20,000,000.

The income tax is not dwelt upon at length, but the report estimates that 425,000 individuals are subject to it and that corporations not heretofore subject to tax will number about 150,000.

International action to prevent such disasters at sea as resulted in the sinking of the Titanic is urged.

"The important maritime nations should unite," says the secretary, "in defining lanes of travel across the North Atlantic to avoid all danger of icebergs during the months of April, May and June of each year and compel steamship companies to observe them. This would result in increasing to some extent the time of ocean passage but it would on the other hand, insure immunity from the dangers of icebergs during this season. The steamship companies should not be permitted to jeopardize needlessly human life for the purpose of shortening the transatlantic journey by a few hours, and saving a comparatively few dollars, but if they are they should be compelled to maintain an effective ice patrol at their own cost."

Health Service Report.

The question is to be taken up by the International Conference on Safety at Sea now in session in London.

Speaking of scientific research by the Public Health Service the report says:

"On account of the announcements of discoveries of alleged cures for tuberculosis and their bearing on public health, important investigations of them have been undertaken. Studies of the Friedmann treatment were sufficiently advanced by May 16, 1913, to justify a report that the observations made up to that time did not warrant the confidence in the remedy which had been inspired by the wide-spread publicity. This investigation is being continued, as are also studies of other preparations claimed as cures."

BALD AT 35

Cleanse the Scalp; Nourish the Hair and Never Grow Bald. Use Parisian Sage.

Don't grow bald at 35 as thousands of men do—yes! and women also. Failure to keep the hair properly nourished and the scalp free from dandruff is one of the main causes of baldness.

If your hair is thinning out immediate action is necessary. Parisian Sage is just what you need to remove dandruff stop falling hair and itching scalp and make the hair strong, beautiful and vigorous.

This delightful and refreshing hair tonic, which is now sold at druggists and toilet counters in 50 cent bottles, is rigidly guaranteed. If Parisian Sage does not give complete satisfaction Coover & Shreve will return your money.

Parisian Sage surely supplies hair needs. The first application removes dandruff, invigorates the scalp and puts life and beauty into thin, dull and faded hair.—Adv.

MOTHER! IS CHILD'S STOMACH SOUR, SICK?

If Tongue is Coated or if Cross, Feverish, Constipated, Give "California Syrup of Figs."

Don't scold your fretful, peevish child. See if tongue is coated; this is a sure sign its little stomach, liver and bowels are clogged with sour waste.

When listless, pale, feverish, full of cold, breath bad, throat sore, doesn't eat, sleep or act naturally, has stomach-ache, indigestion, diarrhoea, give a tea-spoonful of "California Syrup of Figs," and in a few hours all the foul waste, the sour bile and fermenting food passes out of the bowels and you have a well, and playful child again. Children love this harmless "fruit laxative," and mothers can rest easy after giving it, because it never fails to make their little "insides" clean and sweet.

Keep it handy, Mother! A little given today saves a sick child tomorrow, but get the genuine. Ask your druggist for a 50-cent bottle of "California Syrup of Figs," which has directions for babies, children of all ages and for grown-ups plainly on the bottle. Remember there are counterfeiters sold here, so surely look and see that yours is made by the "California Fig Syrup Company." Hand back with contempt any other fig syrup.—Adv.

Fit His Case Exactly.

"When father was sick about six years ago he read an advertisement of Chamberlain's Tablets in the papers that fit his case exactly," writes Miss Margaret Campbell of Ft. Smith, Ark. "He purchased a box of them and he has not been sick since. My sister had stomach trouble and was also benefited by them." For sale by all dealers.—Adv.

DOWN TOWN STREET IN CHICAGO CAVES IN TO DEPTH OF 8 FEET

CHICAGO, Dec. 2.—Two hundred feet of a downtown street caved in to a depth of eight feet just after a crowded street car had passed.

The accident happened on Randolph street just west of Wabash avenue. Excavation for the new Marshall Field building, which included tunneling beneath the street to connect the basement with that of a store across the street is believed to have caused it. A twenty-four inch water main was crushed by the sinking pavement and miniature geyser spouted. In a few minutes the depression was half filled with water.

RED RIVER VALLEY DAIRYMEN.

Crookston, Minn., Dec. 3.—Questions of vital importance to dairymen and those engaged in handling the products of the dairy farm are to be considered at the tenth annual convention of the Red River Valley Dairymen's association, which opens a today session here today the breeding, feeding and care of dairy cows, the different systems of making butter, the sanitation problems and tuberculin tests are among the subjects to receive attention. The convention is unusually well attended.

Cured of Liver Complaint.

"I was suffering with liver complaint," says Iva Smith of Point Blank, Texas, "and decided to try a 25c box of Chamberlain's Tablets, and am happy to say that I am completely cured and can recommend them to every one. For sale by all dealers.—Adv.

CAMP 912 ELECTION.

Camp 912 M. W. A. held an election of officers last night resulting as follows:

Venerable consul—Carl Joaquin.

Advisor—Vincent Vioria.

Clerk—H. H. Vasconcellos.

Banker—C. R. Knollenberg.

Escort—Harry Clemmons.

Watchman—Adam Erghott.

Sentry—Ellis Mann.

Trustee—Joseph Gomes.

Following the election a smoker was enjoyed. C. R. Knollenberg furnishing the cigars for the one hundred and twenty men present.

LIGHT QUESTION DISCUSSION.

"And at evening time it shall be light."

The Woman's Clive league will hold a meeting at the court house Friday evening at 7:30 o'clock. W. B. Miser, Commissioners Newman and Brennan, Dr. Edward Bowe, and Henry J. Rodgers will discuss the light question. All voters who are interested are urged to be present. At this meeting an opportunity will be given to any women who wish to join the league to sign the constitution. This is a non-dues paying organization and any woman interested in the welfare of Jacksonville and its citizens will be welcomed as a member.

Satisfactory Bread

The product of our bakery is of high class and will give certain satisfaction. You may like home-made bread but there is nothing which is better than

Franks' Malt Bread

Pies, Cakes and other Pastry from this bakery are uniformly good.

SECOND HAND STORE
212 South Mauvalsterre St

Your Credit is Good

This sounds like an "ad" for a clothing store, but it isn't. However, it concerns a commodity that is just as important to every person in Jacksonville as clothing or any other necessity. We're talking about GAS and ELECTRICITY.

We don't desire to tell you about the many advantages of gas and electricity, but we do want to tell you how you can have your house piped or wired for gas, or electricity and never feel it.

Easiest Thing You Know

That's what it is, as observe the following plan: We will pipe or wire your house RIGHT NOW and allow you twelve months in which to pay for the service. Also, we will do the work at cost price. Phone us at No. Ill. 580; Bell, 332, or call and we will be glad to give further details.

DO IT NOW! PAY LATER

Jacksonville Railway & Light Co.

This Weather Honestly Has Just "Played the Dickens" With The Clothing Business

☞ We bought largely on the assumption, and, properly, too, that real, snappy cold weather would be our portion. These goods must be got rid of, at any sacrifice. We must turn this merchandise into money. It soon will be time for us to begin looking into spring trade; but the goods we have must be sold first.

☞ Now is your chance to buy Suits, Overcoats, Raincoats, Shoes, Shirts, Underwear, Etc., Etc., at prices lower than ever before offered. Call and see. A call will cost you nothing.

☞ Also everything in furnishings for women is being closed out—from suits and dresses to millinery. The ladies will find in this an exceptional opportunity to buy.

LITERBERRY.

We are in receipt of a letter from Bloodland, Mo., announcing the death of A. B. Deaton, of that place.

A. B. Deaton was born near Concord, Morgan county, Illinois, November 22, 1839. Died November 3, 1913, aged 73 years, 11 months and 12 days. Mr. Deaton was of pioneer stock, his people coming to Illinois before the deep snow; he attended the public schools as other boys did, but was not satisfied with the meager crumbs of education picked up at these schools, and in 1862 he attended the LaGrange college in Indiana, finishing his education. In the fall of 1864 he was united in marriage to Miss Lena McCarty of near Arenzville, Ill.

In speaking of a young man being married at this date, one would wonder why he was not with the boys fighting for his country. This is explained by the fact that he was incapacitated by being a victim of inflammatory rheumatism; nevertheless, two of his brothers went to the front, one, James, being killed at Resaca, Georgia.

The pioneer blood began to move in the veins of Mr. Deaton as soon as he had a helpmate, and taking with them his sister and widowed mother, he landed in Richardson county, Nebraska, in the spring of 1865. He lived here ten years, farming and teaching school. In 1875 he became a pioneer again by moving to western Kansas, to what is now, Hodgeman county, but at that time a howling wilderness, covered with prairie grass and sage brush, and inhabited by buffalo and wolves. He had the satisfaction of seeing the wilderness converted into a fine farming country in the fourteen years they were citizens there. Looking for a more healthy location and a warmer climate they decided to cast their lot in the Ozark mountains, and in 1889 they arrived in Pulaski county, Missouri, where they have lived ever since, gaining a competency from the soil, of which any one might be proud. During these wanderings there were many dark days but Mr. and Mrs. Deaton were Christians, and both of jovial spirit, always looking on the bright side and taking things in a philosophical way; these good people were the parents of nine children, seven boys and two girls. Mr. Deaton leaves the mother and four children to mourn their loss; Mrs. E. A. Mather of Burdette, Kan.; Mrs. Nellie Koonce, Earnest and Robert of Bloodland, Mo.; three little boys having died in 1879 in the short period of 10 days, of diphtheria, while living in Kansas, and two boys, Fred and Harry being taken five years ago by that dread disease, typhoid fever.

Mr. Deaton was a man of progressive ideas, a staunch prohibitionist, a good farmer and was respected and loved by his neighbors. He served as justice of the peace for twenty years at Bloodland.

Thus the pioneers are dropping out and while we respect and love their noble deeds, we do not really know of all the good needs they did for the betterment of our country. Neither can we tell all the hardships endured by these good old pioneers.

D. K. McCarty.

CITY AND COUNTY

F. J. Andrews went to Beardstown yesterday on business.

Alexander Johnson of Nortonville was a Wednesday business visitor in the city.

Mrs. George Needham of Virginia is a guest at the home of Mrs. Elizabeth English on West Morgan street.

W. T. Dodsworth left Wednesday for San Francisco where he will join his family and spend the winter.

ENTERTAINED AT PEACOCK INN.

Trustees of Passavant Hospital to Eat at Noon With the Executive Board.

The executive board of Passavant hospital has invited the trustees to a dinner today at noon at the Peacock Inn and all are earnestly requested to be present. The desire is to discuss tag day and devise means for making it a complete success for the benefit of the tag day fund for the hospital.

It also is gratifying to know that the energetic young manager, Carl Weber, has called on several of the ladies' clubs of the city and all have expressed a willingness to assist in the work.

As has already been stated, tag day is exclusively for the needy ones unable to pay anything and they are treated at the hospital free of any charge for anything, doctor surgeon, medicine and all being like the gospel, without money and without price.

The Chamber of Commerce has also added its approval of the enterprise as it set forth in the following communication:

Carl H. Weber, chairman of the tag day executive committee, has received a letter of endorsement from Secretary Fritchey of the Chamber of Commerce, as follows:

"We are glad to take this opportunity to endorse the method which is pursued by the trustees of Passavant hospital in securing money on tag day for the needy poor and general work of the hospital.

The service which the men of your board are doing for this noble institution is one of deep significance and one which many of us seldom take time enough to appreciate.

"We wish you great success and trust that a large sum will be realized by your special committee.

"Very truly yours,
"Jacksonville Chamber of Commerce
"By Paul B. Fritchey, Secretary."

MATRIMONIAL

Williams-Emerson.
A despatch from Chicago to the Journal yesterday stated that a marriage license has been issued there to Percy E. Williams of Geneva, New York and Miss Grace F. Emerson of Jacksonville, Ill. The bride is a daughter of Mr. and Mrs. J. A. Emerson of 349 West Morgan street. She is a nurse and has been employed in a hospital in New York state.

Madison-Coffman.
The marriage of Alonzo Madison and Miss Marie Coffman, both of this city, took place Tuesday evening at 8:30 at the Christian church parsonage on West College avenue, the Rev. Clyde Darsie officiating. Both bride and groom are exemplary young people with a large number of friends who extend their congratulations. Mr. Madison is the son of Mr. and Mrs. Berry C. Madison of East Independence avenue and the bride is a daughter of Mr. and Mrs. Frank Coffman of East College avenue. She received her education in the schools of Jacksonville. The groom was reared near Ashland, removed later to Virginia, coming to Jacksonville a little over a year ago. Mr. and Mrs. Madison will reside in the city.

Kennett-Norfleet.
Mr. Clarence Kennett and Miss Ella Norfleet were married Sunday afternoon at Monticello, Ky. Mr. Kennett is the son of Mrs. Kennett, residing on the Clampt farm northwest of the city. They returned Tuesday night and expect to make their home on a farm near Orleans.

ATTENTION K. OF P. 376.

Begin now and secure some handsome Christmas goods without cost.

Taylor's Grocery

A GOOD PLACE TO TRADE

OBITUARY.

Mrs. Eloise Smith Whitlock passed quietly away at two o'clock Wednesday morning, December 3rd, at Passavant hospital. During her illness of three weeks duration, she was surrounded by loving hearts and hands, and every possible effort was put forth for her well-being and comfort. Every one loved Eloise for her happy joyous nature, and we realize that although she has passed beyond our sight, the beauty and fragrance of the sweet life continue. The little poem, "The Rose Still Grows Beyond the Wall", by A. L. Frink, easily comes to mind:

"Near shady wall a rose once grew,
Budded and blossomed in God's free light.
Watered and fed by morning dew,
Shedding its sweetness day and night.

"As it grew and blossomed, fair and tall,
Slowly rising to loftier height.
It came to a crevice in the wall,
Thro' which there shone a beam of light.

"Onward it crept with added strength
With never a thought of fear or pride,
It followed the light through the crevice's length,
And unfolded itself on the other side.

"The light, the dew, the broadening view
Were found the same as they were before;
And it lost itself in beauties new,
Breathing its fragrance more and more.

"Shall claim of death cause us to grieve,
And make our courage faint or fail?
Nay, let us faith and hope receive
The rose still grows beyond the wall.

"Scattering fragrance far and wide
Just as it did in days of yore,
Just as it did on the other side
Just as it will forevermore.

Mrs. Whitlock is survived by a devoted little family group consisting of her husband, Mr. Eben I. Whitlock, her mother, Mrs. Alice N. Smith, her two sisters, Misses M. Maude and Alice N. Smith and her aunt Miss Lydia Hamilton.

Funeral services will be held at the family residence on Park street, Friday afternoon at 2:30, to which friends of the family are invited.

FOOTBALL MEN WILL HOLD BANQUET

Athletes, Instructors and Former Students of Illinois Will Gather Round Festal Board—Ernest Alford Re-Elected Captain.

Following the regular chapel exercises at Illinois College Wednesday morning the "I's" were presented to the football men and Ernest Alford was re-elected football captain. On Friday night the annual football banquet will be held at Colonial Inn. The dinner will be served at 6:30 o'clock and it is very desirous that there will be present a large number of the alumni and those interested in the college. Everyone who expects to attend should notify Viggo Jensen by Friday noon. Among the guests to be present are the members of the Senior class of the high school, who played on the football team, Berryman, Williamson, Woods, Sutherland. Athletes from other cities include, Helme, Schneider, Potter and Adkinson of Springfield; T. Henry of Alton; Messrs. Son and Rentschler of Mount Vernon; H. H. Bancroft will act as toastmaster and the following is the list of toasts:

"Our New Gymnasium"—Andrew Russell.
"Benefit of the Doubt"—Hugh Green.
"A Center's Backward Glance"—T. H. Buckthorne.
"A Little plus more equals Much"—P. Whistler.
"Presentation of Sweaters"—Pres. C. H. Rammelkamp.
"College Life"—Dean F. S. Hayden.

"Sportsmanship in Athletics"—Rev. Howard D. French.
"Alumni Association"—A. T. Capps.
"Team of 1913"—Capt. Ernest Alford.
"Past, Present and Future"—Coach W. T. Harmon.

"I's" Awarded.
The "I's" were awarded by Dean Hayden following the re-election of Ernest Alford as captain for the 1914 team. (His work during the year has been of a valuable kind and he is popular among the players. Men to receive "I's" must have played in five of the eight games scheduled. The following received the initial:

Ernest Alford (captain), third year, sophomore.
Robbins Russell, second year, senior.
Waldo Sprit, first year, junior.
Harry McLaughlin, second year, sophomore.
Rex Gary, second year, sophomore.
Fred K. Stewart, second year, sophomore.
Julian Frisbie, first year, freshman.
Warren Pierce, second year, freshman.
Paul Darragh, third year, junior.
Calvin Achison, first year, freshman.
Hugh Maxey, first year, sophomore.
Carl Lukeman, second year, freshman.
John Mitchell, first year, freshman.
Hansel Wilson, first year, freshman.
Viggo Jensen, manager.

ENTERTAINED REBEKAHS.
Mrs. John Thompson entertained the members of Rebekah lodge No. 13 at her home on South Diamond street Wednesday evening. A most delightful time was spent.

WELL KNOWN YOUNG PEOPLE WILL WED DECEMBER 18

Miss Kathryn Petefish of Litterberry To Become Bride of Mr. Charles McDonald.

Miss Kathryn Petefish, daughter of Mr. and Mrs. O. M. Petefish of Litterberry will become the bride of Mr. Charles McDonald, son of Mr. and Mrs. James McDonald of four miles east of the city on December 18. The announcement of the marriage was made at the home of Miss Ona Crum Wednesday evening at a party attended by thirty young lady friends of the bride to be.

The news of the approaching marriage was conveyed to the guests by means of hand painted place cards upon which were depicted two old women, carrying a small red bag. In this bag attached to the card were slips of paper bearing the words, "Charles" and "Kathryn." The refreshments were served in the dining room, decorated in red. On the table was a large heart, made of red carnations which harmonized excellently with the decorations of the room.

The prize winners in the contests were Miss Lora Petefish and Miss Anabel Crum.

STORE IS PRETTY DECORATED.
The book and drug store of J. A. Obermeyer & Son presents a very beautiful appearance in its new holiday attire, the work on which was completed by Harry Obermeyer yesterday. Two rows of Japanese lanterns, which run the length of the store, are lighted with electricity and at intervals have been placed across the room small pennants which spell out the words, "Merry Christmas." Tinsel and other Christmas decorations have been used and the entire room presents a very pretty effect.

Buy to's at BRENNAN'S. Large stock to select from.

ALEXANDER M. E. CHURCH.
The Rev. M. R. Johnson of the Alexander M. E. church has gone to Petersburg to assist Rev. Mr. Meyers in a series of revival meetings. Arrangements will be made for preaching as usual in the church at Alexander Sunday.

Good Pants News

We have on sale the entire yardage of suit woolens of a large clothing manufacturer, which they made into pants for us.

They are the ends of bolts of cloth which remain from the suit cuts. Every pair is all wool cassimere or worsted. The styles are from neat suit patterns which sold in the suits from \$15 to \$25.

Any of these trousers are worth from \$4 to \$6 and are heavy weight that you do not find in the usual pants stock. Sizes 30 to 46 inch waists.
